British Resume The Offensive at Bullecourt

CAPTURE ANOTHER SECTION OF THE FAMOUS HINDENBURG DEFENCE LINE

Gain Objective of Attack Overcoming Stubborn Resistance

First Determined Advance Since Great Drive—Ground Taken In Direction Of Hendecourt-Les-Cagnicourt—Germans Sustain Heavy Casualties—In Flanders British Have Extended Gains Astride Ypres-Comines Canal—Since June 17 Line Advance On A Seven Mile Front 500 To 1,000 Yards.

(By Morning Bulletin Leased Wire)
Field Marshal Haig has taken another bite into the Hindenburg line and captured a section of the famous German position northeast of Bullecourt. The British advance in this region is the first determined one made there since the end of the sanguinary fighting which resulted in the capture of the town of Bullecourt by the British, and is in the direction of Hendecourt-Les-Cagnicourt. The Germans resisted the British stubbornly, but finally yielded after suffering heavy casualties.

In Flanders the British have extended their gains astride the Ypres-Comines Canal in the direction of Comines and in the region of Messines, toward Warneton, on the Franco-Belgian border. One hundred and fifty prisoners and a number of machine guns were taken. Since June 7, the British have succeeded in occupying the German first line trenches from the River Lys to the River Warnave, and have advanced their line on a seven mile front from 500 to 1,000 yards.

Berlin officially admits a withdrawal of the German front line between Ypres and Armentieres east of Messines, as announced by Field Marshal Haig on Thursday.

Elsewhere on the front in France, as well as in the Trentino region of the Austro-Italian front and in Macedonia, there has been little except artillery activity of varying intensities.

Northwest of Bullecourt.
LONDON, June 15.—The British official statement issued tonight reads: "Early this morning we attacked and captured a further portion of a section of the Hindenburg line, the enemy northwest of Bullecourt. Our hostile garrison offered stubborn resistance and suffered heavy casualties. We took 45 prisoners."

"We also captured a few prisoners the result of successful raids east of Lons and in the neighborhood of the River Lys."

"Our own and the enemy artillery are active during the day north of Scarpe and at a number of points between Armentieres and Ypres. Four German airplanes were shot down yesterday in fighting and three others were driven out of control. Two of our machines failed to return."

Prisoners and Material.
LONDON, June 15.—The British official statement issued this morning reads: "Our troops attacked yesterday evening and captured a further portion of a section of the Hindenburg line, the enemy northwest of Bullecourt. Our hostile garrison offered stubborn resistance and suffered heavy casualties. We took 45 prisoners. We also captured a few prisoners the result of successful raids east of Lons and in the neighborhood of the River Lys."

"As the result of these operations the constant pressure maintained by our troops since June 7, now occupies the German front trenches on the River Lys to the River Warnave, and have advanced our line from 500 to 1,000 yards on the whole front. The distance between the River Lys and the River Warnave is about five miles."

"We made a successful raid last night north of Lons. Many German prisoners were taken by us. A few prisoners were taken by us."

Artillery Activity.
PARIS, June 15.—"The day has been left except in the sectors of Hurler and Craonne, where the two armies continued to show activity." The official communication from the French war office in regard to operations in France and Belgium, which has been rather spiritless, toward Schillerburg and Steenae, at Het Sas yesterday our aviators shot down two enemy airplanes, which fell within the German lines. By morning a third airplane, which was shot down, was brought in flames toward Kemm.

ROME, via London, June 15.—"On a front of artillery engagements were predominated," says the Italian official communication issued today. "Our artillery has been in close proximity to the station at Calliano and also columns on a march in the Terragno Valley and the Val d'Aosta. The Italian aviators shot down two enemy airplanes, which fell within the German lines. By morning a third airplane, which was shot down, was brought in flames toward Kemm."

French At Larissa.
PARIS, June 15.—"In Thessaly the Greek troops are established and Larissa. Our advanced elements have occupied without any difficulty the town of Larissa. The British aviators shot down two enemy airplanes, which fell within the German lines. By morning a third airplane, which was shot down, was brought in flames toward Kemm."

Army of the East, June 14.—In the direction of the Lake Doiran, the enemy, after suffering heavy casualties, was repulsed. The artillery fighting has been rather violent on the right bank of the Vardar and intermittent in the direction of the Lake Doiran. The British aviators shot down two enemy airplanes, which fell within the German lines. By morning a third airplane, which was shot down, was brought in flames toward Kemm."

Successfully Bomb Airplane.
LONDON, June 15.—A squadron of British bombers dropped bombs on a German airplane which was flying over the sea. The airplane was hit and fell into the sea. The British aviators shot down two enemy airplanes, which fell within the German lines. By morning a third airplane, which was shot down, was brought in flames toward Kemm."

Head of Jap Commission.
VANCOUVER, B. C., June 15.—Private advices received here this afternoon announce the appointment of Baron Ishii as head of the commission to effect a rapprochement with the United States over the Chinese question.

TORPEDO TRAINED ON BRITISH OFFICER RESCUING HUNS

Admiralty Replies To German Charge Of Inhumanity After Attack On Ostend.

(By Morning Bulletin Leased Wire)
LONDON, June 15.—An Admiralty communication was issued this evening concerning an allegation made in a German wireless despatch charging inhumanity on the part of the British in failing to rescue more of the crew of the German torpedo boat destroyer S-20, which was sunk by the British squadron in its attack on the German naval base at Ostend June 5. The communication explains that the British officer engaged in the rescue found that the S-20 had her torpedo tube trained on his vessel, while there were enemy seaplanes overhead which were apparently about to drop bombs. It also says that the British rescuing vessel was under fire from the short batteries and that the officer therefore ceased rescuing the sailors when seven of them had been picked up, as nothing further could be done, and grave risks had been incurred for the sake of humanity.

COST OF LIVING IS ON UP-GRADE SAYS REPORT

Monthly Statement Of Labor Department Shows Rise In Retail Prices.

(By Morning Bulletin Leased Wire)
OTTAWA, June 15.—The monthly report of the department of labor shows that the cost of living is still increasing. In retail prices of food the cost of a weekly family budget, including such items as bread, meat, butter, eggs, and other necessities, rose from \$10.37 to \$11.32 during the month of May. Of this increase one-third occurred in meat, one-third in bread and flour and one-quarter in potatoes. Rice, beans and sugar also showed some increases. Cheese was a little higher but milk and butter declined slightly, where the increase is usually substantial.

In May, 1916, the same budget cost \$8.37; in 1915, \$7.84; and in May, 1914, \$7.42.

The department reports that coal and wood are slightly higher than a year ago. Rents also showed some increases. In wholesale prices the department index number based upon the average prices of 27 commodities for the decade 1890 to 1899, stood at 240 for May 1, compared with 228.70 for April and 123.83 for May, 1916.

The department of labor reports that during May there were thirty-four strikes involving 134 firms and 10,955 employees. At the end of the month seventeen strikes were reported.

The trend of wages were reported as upward.

BOARD GRAIN SUPERVISORS MEETS JUNE 21

Sits At Winnipeg To Ascertain Views On Marketing Under War Conditions.

(By Morning Bulletin Leased Wire)
WINNIPEG, June 15.—The board of grain supervisors of Canada will be in session in the board room, Exchange building, here June 21, 10 a. m. The board desires to ascertain the views of the grain growers on the marketing of grain under present war conditions.

While it is impossible to fix an hour at which any particular party can be heard, the following plan will be adhered to as far as possible:

Thursday morning session, June 21: 1. Elevator men; (2) public terminal elevators; (3) grain dealers' Association; (4) farmers' co-operative companies.

Thursday afternoon: 2. Brokers and licensed commission merchants.

Friday morning: 3. Exporters and shippers.

Friday afternoon: 4. Grain Growers' Associations.

Friday morning: 5. Milling companies.

CHINESE REPUBLIC NOW FACES CRISIS
Military Governor Received At Peking With Royal Honors—Dictator Not Mediator.

(By Morning Bulletin Leased Wire)
PEKING, June 14.—General Chang Hsun, military governor of Anhwei, arrived here today and was received with royal honors. He is said to come as a mediator instead of a mediator between the opposing Chinese political parties.

The political parties are displeased over the ascendancy of the military party and the outcome is uncertain. Southern provinces are urging the members of parliament to remain in Peking assuming their duties. The position of Colonel Winston Spencer Churchill is perplexing one. The paper says that the premier wishes to appoint him chairman of the board, but that the opposition to the appointment is exceedingly strong and that certain leading politicians refuse to serve with the former head of the Admiralty.

SITUATION IN SPAIN REACHES CRISIS RUMOR

Rank And File Of The Army Demand Reforms.

PREMIER DECLARED TO BE POWERLESS

Serious Industrial Unrest—German Influences At Work.

(By Morning Bulletin Leased Wire)
LONDON, June 15.—Rumor of something decidedly abnormal in the Spanish situation have been given prominence in the reports for two or three days by a small section of the press and today several papers print articles declaring that something important is happening. One suggestion is that the situation in Spain is becoming materializing, but the information available is that the crisis is purely a domestic one and largely due to the demand for reforms by the rank and file of the army.

One of two solitary telegrams from Madrid which have reached here in the last four days carries a denial by Premier Dato of a report of insubordination by the Bilbao garrison. This is the only direct confirmation of newspaper statements that a grave military crisis exists in Spain.

According to the Express the army has obtained complete dominance; military "committees of defense" have been established and have tabulated a list of reforms demanded by the army. The action of the committees, says the Express, is a more or less vivid reflection of what happened in Petrograd.

Premier Dato is powerless, as was his predecessor, Count Romanones, to obtain a modification of the soldiers' claims.

The Express asserts that constitutional government is at an end; the army is the ultimate arbiter of the crisis.

The Daily News has similar information and reports also serious industrial unrest. It says the ranks and file of the army contains many factors as the populace and is probably the chief link between them in the matter of grievances. Bad conditions and poor pay in the army have bred angry feelings and there has been seething discontent in Barcelona.

In all reports there are allusions to German influences working for their own ends. The Spanish embassy in London claims knowledge of everything unusual, but it is stated that neither commercial firms or newspapers are able to get replies to telegraphic inquiries.

HUN NEWSPAPER'S CRITICISM OF THE PRESIDENT'S NOTE

Says Wilson's Policy Is Aiming At Domination Of Anglo-Saxon Capitalism.

BERLIN, June 15, via London.—The newspapers continue to comment on President Wilson's note to Russia. The Tages Zeitung says:

"The text of this note appears to have been formulated in collaboration with Mr. Balfour, the British foreign secretary. It reminds one strongly of the communication of the Englishman addressed to Washington last winter elucidating the central powers' note to neutrals."

"We hope this note will put on end to the fable about the 'cloistered solitude' and scholarly nature of President Wilson, as well as shatter impressions of his alleged idealism. President Wilson's policy is aiming at nothing more or less than an achievement which would mean a domination of Anglo-Saxon capitalism. The Russians undoubtedly are already experiencing the effects of this Anglo-Saxon capitalism."

THREE MILLION BUY LIBERTY LOAN BONDS

Unofficial Estimates Indicate That Subscriptions May Reach Nearly Three Million Dollars.

(By Morning Bulletin Leased Wire)
WASHINGTON, D. C., June 15.—The people of the United States have responded to the government's call for funds to finance the war with an over-subscription of the two billion dollar "liberty loan" of proportions so huge that officials are buried beneath a landslide of untold returns.

No man could say at 10 o'clock tonight how great had been the nation's answer. Apparently it was beyond the most sanguine hopes of the treasury officials, though not one of the twelve federal reserve banks, regional headquarters of the loan, could hazard more than an estimate of its extent.

The dominant note was the voice of the small investor. His money talked this last day of the campaign in eloquent terms. It appeared tonight that all previous estimates had been made by the boards and that nearly 3,000,000 men and women had bought their bonds.

Estimates from the twelve reserve districts, some of them unofficial but mostly from local loan committees, indicated late tonight that the subscriptions might reach the total of \$2,800,000. The federal reserve district of New York alone claimed a subscription of \$1,200,000,000.

EMMA GOLDMAN HAS BEEN ARRESTED ON CONSPIRACY CHARGE

Apprehended For Frustrating Operation Of The Selective Draft Law.

(By Morning Bulletin Leased Wire)
NEW YORK, June 15.—Emma Goldman and Alexander Bergman, known to the police as anarchists, were today arrested by the federal authorities in the office of the New York district attorney, charged with conspiracy to frustrate the operation of the selective draft law.

BRITISH COAL KING FOOD CONTROLLER

Baron Rhondda Selected To Succeed Viscount Devonport, Who Resigned.

(By Morning Bulletin Leased Wire)
LONDON, June 15.—Baron Rhondda, president of the local government board, it was announced in the house of commons today, has been appointed food controller. Baron Rhondda, who was David A. Thomas, the "British coal king," before his elevation to the peerage in 1914, succeeds Viscount Devonport, resigned.

VENIZELIST POSITION

SALONIKI, June 15, via London.—It is expected that the Venizelist government will soon be transferred to Athens and will convolve the chamber of Deputies elected in May, 1915, which the followers of former premier Venizelos maintain was dissolved illegally by King Constantine.

CARDINAL MERCIER THANKS WILSON IN AUTOGRAPH LETTER

WASHINGTON, D. C., June 15.—Cardinal Mercier, the daintiest prelate of Belgium, has sent an autograph letter to President Wilson, which was presented today by Rev. John B. Deville, a priest just arrived in this country.

"May you be thanked for your magnanimity, Mr. President, and may you accept as well, I pray you, the thanks of the entire Belgian nation," says the cardinal. "Permit me to say that we shall pray to the good God and ask Him to bless your noble country. Please accept, Mr. President, the renewed expression of gratitude, the homage of my very high consideration."

The letter was dated February 9th at the archbishopric of Malines.

Quieted a Firebrand by Giving Him Job Charge Made Against Sevigny

Lively Scene In House Over Appointment By Hon. Albert Sevigny, Minister of Inland Revenue, Of Paul Renaud, Quebec Newspaperman, As Accountant—Minister Said He Believed Renaud Was Supporter Of Allies But Admitted His Paper Was Shut Down Because Of Articles Written Against Recruiting.

(By Morning Bulletin Leased Wire)
OTTAWA, June 15.—When the house was in committee of supply this evening a lively scene was precipitated by Ernest Lapointe, of Kamourouqui, who asked if Paul Renaud, a Quebec newspaperman whom Mr. Lapointe claimed had attacked recruiting, had been appointed to a position as accountant in the department of inland revenue at Quebec.

Mr. Sevigny replied that Mr. Renaud, he believed, was a supporter of the allies, but had written some articles attacking recruiting for the regiment of Sir William Price. He thought these articles were more the product of his pen than of his heart. For his reason he had recommended him for the position of accountant.

"The minister of putting him in gaol or gave him a job?" asked E. M. MacDonald.

A Vivid Contrast
Hon. Frank Oliver said it certainly was a remarkable fact that a newspaper at St. John's, Nfld., had been suppressed because of its utterances and a paper in Quebec which made similar utterances was suppressed by the appointment of the editor to a government position.

Mr. Sevigny protested that it was not a fair way of putting the matter as Mr. Renaud was well disposed to do so. He repeated that since the war broke out he had done everything possible to help. Many Liberals, however, were worse than the Nationalists had been in 1911 when there was no war. Despite the crisis, the Liberal French press were repeating the same statements made by Tancred Marcell and Henry Bourassa.

Mr. Lapointe's challenge
Mr. Lapointe's challenge would challenge the minister to show that any French Liberal newspaper was expressing the views approved by the minister and his friends some years ago. The Liberal press had always advocated participation by Canada in the war. The newspapers and people who are using violent words against the king's ministry, Mr. Lapointe said, were the same as the platform of 1911. Tancred Marcell, who was Conservative candidate in 1911, is saying now the same words he used in 1911.

ANGRY VETERANS INTENDED TO BREAK UP A REPORTED ANTI-CONSCRIPTION MEETING

Go To Calder, 200 Strong, To Take Hand In The Proceedings—Could Find No Gathering But Hold A Meeting Of Their Own Account In Which Warning Is Given Of Purpose To Prevent Any Such Demonstration—Singing Of National Anthem By The Crowd Was Earnest and Unanimous.

Two hundred returned veterans, hearing that an anti-conscription meeting was to be held in Calder last night, went out to that newly annexed Edmonton suburb to take a hand in the proceedings. There was no anti-conscription meeting, but the veterans held a meeting of their own account in the open air, at which the crowd that had gathered heard in very plain language just what would happen if any such thing were tried. One speaker intimated that the meeting would be prevented even if it were necessary to pull down the hall, and as for any anti-conscriptionist speakers, as long as there was a horse-drawn or a barrel of tar handy these would be used without stint. The soldiers then proceeded to the French settlement, where the same remarks were repeated, one of the speakers putting it into that language. The warning was intended to apply to the whole neighborhood, and the soldiers gave it to be understood that any meetings of that character would not be allowed, if they could prevent them.

Everybody sang the national anthem with fervor and it was noticeable that the crowd on the sidewalk joined in singing it with great earnestness. It could have been heard a mile.

The report was circulated last night

SWIMMING POOL ON MILL CREEK

Cost Would be \$150, Supt. Dan Alton Recommends to Commission

That it would cost something like \$150 to make a dam in Mill Creek, where it runs through Rutherford Park, for the purpose of forming a swimming pool, is the opinion of Superintendent Dan Alton, of the streets and scavenging department.

The proposal for the pool was the subject of an application to the Public Works Committee by the boys' department of the Y.M.C.A., when it was stated that very little had so far been provided for the boys of the city in the way of giving them opportunities for recreation.

The committee seemed somewhat favorably impressed by the suggestion and asked for details of cost to be provided, and also if there was any old construction material which could be used for the purpose.

NO EDMONTON MEN APPEAR UPON THE CASUALTY LISTS

There were no Edmonton men on today's casualty list, unless Pte. J. Boje, whose next of kin are in France, and who enlisted in a local unit, lived here. He was wounded. The Alberta men on the list are as follows:

Wounded
Pte. J. D. Davis, Calgary.
Pte. S. Heigh, Calgary.
Pte. G. T. Lambert, Camrose.
Pte. D. Cunningham, Lethbridge.
Sergeant G. Hainsworth, Calgary.
Corp. W. Rowe, Calgary.
Corp. Constantine, Riviere Qui Parre.
Pte. M. Clark, Eagle Hill.
Pte. D. Gibson, Calgary.
Pte. V. D. Nelson, Ponoka.
Pte. J. A. Jones, Calgary.
Pte. W. J. Miller, Calgary.
Pte. J. Nicholson, Calgary.
Pte. J. Boje (436997) France.
Sapper J. W. Guerrier, Beaumont.

RECRUITING FOR DRAFTS
The Canadian Army Service Corps is recruiting in Edmonton with an office in the Dominion block, 100th street. The Canadian Engineers, with an office in the C. E. B. building, are also out on the list. These units are not recruiting battalions, but as soon as drafts are ready recruits are sent to Calgary for training at Sarcee camp.

DAIRYING IS GROWING FAST IN N. ALBERTA

Display at Edmonton Exhibition This Year Promises to be Big One

Although it is generally known that Edmonton district has made great strides in mixed farming in the past few years the figures of the growth even since the war began will be surprising to many.

Here are the figures of three years' for all Alberta:

	1914	1915	1916
Creameries	5,444,800	7,750,571	8,400,000
Pct. increase	22.31	15.48	11.58
Cheese Tons	70,581	372,000	680,000

Of the above, 75 per cent. is produced in the northern half of the province, of which Edmonton is the marketing centre. While this particular branch of the farmer's business of food production is still in its infancy, Northern Alberta produces butter and cheese that will compare favorably with that of Ontario or any other section of the country.

The Edmonton Exhibition Association, realizing the importance of encouraging this industry, has this year increased its prize list very materially for both butter and cheese. \$110 is offered in two classes for cheese. For creamery butter, \$338 is offered in three classes, and for farm dairy butter \$55 in two classes.

In addition, four gold medals are being offered by the exhibition association and by local firms. That these liberal prizes will bring out a good display of butter and cheese at the Edmonton exhibition, July 9th to 14th, is assured, as entries have already been received from Ontario for competition in these classes. Entries close on June 26th.

ALEX ROSS SAYS HE IS REPRESENTATIVE OF LABOR IN HOUSE

Calgary Man Who Beat T. M. Tweedie Wants Party Politics Abolished.

Alex. Ross, of Calgary, the labor candidate whose victory over T. M. Tweedie was the sensation of the Edmonton visit last night. To The Bulletin Mr. Ross said that he was elected as a representative of the labor men and was, as such, an independent member of the legislature. He declared that he did not intend to ally himself with any party or the other, but should keep careful watch of the legislation brought in, and support that which, in his opinion, was in the best interests of his constituents. He might vote with the government on one matter and with the opposition on another, he remarked.

Mr. Ross said that the labor men carried on their campaign on a well defined program. At present the chief thing they had in view was the perfection of the workmen's compensation act. He said that he was also very strongly in favor of proportional representation and of the elimination of the party system from provincial affairs altogether.

The labor candidate said that the result in Centre Calgary was not altogether such a surprise, as he had been stated. The labor men, while not claiming the election in advance, had been sure that they would give the Conservatives a surprise and had succeeded in doing so. As a most unpleasant surprise it had proved to be for the opposition. The labor men had carried on their campaign almost without money and expended only what was absolutely necessary for expenses and had had only one scrutineer on the job all election day.

URGES MORE CARE IN HANDLING MILK

Milk Inspector Says Reason Here When Greater Attention is Necessary

That more care should now be exercised in the handling and cooling of milk is emphasized in the report of Milk Inspector Graham.

He says that the time has now come when climatic conditions render it necessary for both producers and consumers to exercise his increased care, although, adds the inspector, it usually takes both a long while to wake up to the fact.

During the last month 170 samples of milk sold in the city were bacteriologically examined and the results, on the whole, were good.

BOY DROWNED
SARATOGA, June 16.—By the capsizing of a canoe Jack Cairns, 15, son of J. F. and Mrs. Cairns, last night, was drowned in Pike Lake last night. His companion, Brock Smith, a good swimmer, endeavored to rescue him, and was himself exhausted when help arrived.

HOW LT. MALONE WON HIS D.S.O.

Details have been received here regarding the gallant feat by which Flight Sub-Lieutenant John J. Malone of Regina won his D. S. O. Lt. Malone is a nephew of T. P. Malone of the South Side and was awarded the Distinguished Service Order after he had been killed in aircraft "on a number of occasions," continues:

"While engaging a fourth he ran out of ammunition, so returned to an advanced landing ground, replenished his supply, at once returned and attacked another hostile formation, on a machine of which he brought down out of control.

"On the afternoon of April 24 he engaged a hostile two-seater machine, after badly wounding the enemy observer forced it to land on our side of the lines."

Capt. Jas. McQueen Son of Dr. McQueen, Reported Wounded

Second Son of Well-known Edmonton Minister, to Appear in Casualties

Rev. Dr. McQueen Thursday night received a wire from the militia authorities at Ottawa informing him that his son, Capt. James McQueen, is officially reported wounded on June 12. Further particulars are expected later.

Just a year ago today Dr. McQueen received notice that his son Alex. had been injured.

Capt. McQueen enlisted in Edmonton with the 68th and later was transferred to a well known Edmonton regiment now at the front.

ASSESSMENT DIFFICULTY
One solitary objector presented himself at the court of appeal against assessments held by the city commissioners at the civic block on the South Side Friday afternoon. The case of T. Housley, who has property in Grove Park subdivision, was not so much an appeal against assessments as to obtain an adjustment of back taxes. The point is that some of the property was sold, but neither purchase money nor taxes have been paid by the purchaser. The question is to decide where the responsibility for payment of the taxes rests. The only course is for the original owner to take the property back and to pay the taxes up to date, and this was the advice given by the commissioners.

MANY MEN SIGN WITH THE A. M. C.

Inquiries Are Being Received Daily By Local Recruiting Offices.

The army medical corps are receiving many applications for enlistment these days, and inquiries are being received daily from outside points by the local recruiting offices. Some of the men enlisting during the week are R. C. Repp, L. B. Ogle, David McLellan, William West, Frederick M. Bill, E. J. Casaly, all of Edmonton, and H. A. Smart and A. H. McCurdy, of Sedgewick.

The period of training which the men joining the Army Medical Corps undergo at the training depot in Calgary is very short, owing to the constant demand for men for overseas service. At the present time there is a draft of fifty officers, non-commissioned officers and men all ready equipped, awaiting orders for instant departure. In this draft there are several Edmonton men who only enlisted quite recently.

All information will be gladly given at the recruiting office, room 8, Bradburn-Thompson block, 10160 101st street, Edmonton.

CLUB TO COME OUT THIS YEAR WITH SURPLUS

Vacant Lots Garden Club Has Been More Successful Than Last Season

The Vacant Lots Garden Club has met with greater, much greater success, this year than last, as now the club is over the club stands.

"Financially," says W. G. Carpenter, superintendent of schools, and secretary of the club, "the present year has been provided for and the club should end with a balance in hand. It will not be necessary to call on the city council and ask them to keep their promise and make good a deficit incurred for breaking and growing lots, although the club appreciates the promise greatly."

The city is giving the club free telephone calls, and if some records are not broken in this department this year somebody will be very much surprised.

Sergeant Bill has the recreation of the men under his management and Sergeant Major C. H. Webster is the human dynamo that radiates energy throughout the N. C. G. staff of the club. There is a very large number of willing and efficient civilian staff. Cheerfulness and alacrity are the distinguishing characteristics of the home staff, as seen yesterday with the June sun pouring through its windows and making its park-like surroundings beautiful to look at beyond the power of words to describe, one can hardly see how it was that the veterans absolutely had "no kick coming."

NORTH EDMONTON

The marriage took place at Wetaskiwin on June 10th of Mr. Norman Gardner, formerly of the Swift Canadian Company, Edmonton, now manager for P. Burns & Co., Regina, and Mrs. Arthur Murphy, of Edmonton. The ceremony took place at the Emmanuel church of England at 11 o'clock and was officiated by Rev. Arthur Murphy, of Edmonton. After the ceremony the party motored to the residence of Mr. James Gardner, J. P., near Wetaskiwin, the bridegroom's father, where luncheon was served. The evening friends and neighbors gathered and during dinner the bride and bridegroom received the good wishes of the guests after which the rest of the evening was spent in singing, music and dancing. The young couple were the recipients of many useful and valuable presents and left for the honeymoon at Cranbrook for the honeymoon. Mr. and Mrs. Gardner will reside at Regina.

NEW CONVALESCENT HOME FOR VETERANS IS ONE OF VERY BEST IN ALL CANADA

Sixty Men Already Established There—A Kickless Institution—Big Enrollment For Vocational Training Courses—Gardening Department A Revelation—What A Trip Through The Building Reveals.

One of the most treasured privileges of the soldier, returned and otherwise, is the right to kick. The fact that since the opening of the Edmonton Military Convalescent Home in the Alberta college building on South Side, over month ago, not a solitary complaint has been registered, is a compliment of the very highest order to the efficiency and care with which the veterans are looked after. This is no exaggeration to say that it is one of the best institutions of its kind in Canada.

There are about 60 men now at the home and as many more are on the way from the east. The building has accommodations for 300 to 350 at a pinch—and the indications are that at the end of the year all the accommodations will be needed.

Clean as New Pin
Much still remains to be done completely to fit and equip the building for the purpose for which it is intended but so much has already been done that it looks as if some magic had been exercised on the premises instead of mere soap and water, and energy and industry which have achieved such remarkable results.

From attic to basement the building is clean as a new pin and scrubbed to such a pink of faultless perfection that the average housewife who steps across its immaculate threshold must be awed indeed.

The home, as everyone knows, is under the control of the Military Hospitals Commission command and the commandant, in Capt. Plinder, late of the 49th, who has been in charge of the Strathcona Military hospital with such distinguished success. The medical work is in charge of Capt. Kieler and the vocational training work under J. A. Yule who has already accomplished wonders in the way of training disabled men for further usefulness in civilian life.

John Baxter in Charge
An extensive gardening enterprise has been inaugurated, in charge of John Baxter, whose fame as a horticulturalist and prize winner is somewhat wide. Seven acres of land are under cultivation and if some records are not broken in this department this year somebody will be very much surprised.

Sergeant Bill has the recreation of the men under his management and Sergeant Major C. H. Webster is the human dynamo that radiates energy throughout the N. C. G. staff of the club. There is a very large number of willing and efficient civilian staff. Cheerfulness and alacrity are the distinguishing characteristics of the home staff, as seen yesterday with the June sun pouring through its windows and making its park-like surroundings beautiful to look at beyond the power of words to describe, one can hardly see how it was that the veterans absolutely had "no kick coming."

Under Nominal Discipline
The veterans are under nominal discipline, which the boys recognize is for their own good. But the real light. They go and come almost as they please. The meals are as good as money and skill can provide. The beds and rooms are comfortable beyond belief. There is recreation, opportunities for education and study, plenty of society and the knowledge that every bit of it, and more, has been earned in the service of the empire.

Vocational Training
In the vocational department Mr. Yule has three classes under way with a returning men are studying the whole strength of the home. The first is the commercial course, under the direction of Mr. McTavish, including instruction in book-keeping, typewriting, shorthand, and other market building, 101st street, at 8 p.m.

The bugle band will parade on Tuesday, June 19th, and Wednesday, June 20th, at 8 p.m.

Commercial travelers' platoon, C company, will parade on Saturday afternoon at headquarters at 3 p.m.

Recruits will be enrolled at the above named times and places.

Mrs. V. R. Baldwin, 124th street, was a tea hostess on Thursday afternoon for Miss Helen Dawson. Mrs. Schurer poured tea and Miss Aloysia

McKenney cut the fees from a daintily appointed tea table. Assisting were Miss Jean Turnbull, Miss Gladys and Miss Gwen Kirkpatrick. The guests were: Mrs. T. A. Wroughton, Mrs. A. Blair Frith, Mrs. Phoebe, Miss Forsythe, Miss Helen and Miss Jean Dawson, Miss Louis Dawson, Miss Ellen Smith.

After the regular practice of the McDougall Methodist church choir on Thursday evening a very happy event occurred when the members of the choir gave Miss Annie Coburn a miscellaneous shower on the occasion of her approaching marriage to Mr. Empey, of the Woodland City Dairy in about two weeks. Miss Coburn, who has been a faithful member for some five years, was asked to attend the practice, which is held in the parlor of the church, as a farewell. Mrs. W. L. Coome, made some appropriate remarks of appreciation on behalf of the choir to which Miss Coburn replied and then the shower began. There was a great deal of fun and banter as the bundles were opened and admired. Such a variety of things, too, from Irish crochets to a potato masher and from fine china to a carpet beater. There was silver, linen and lace, and a large fancy basket from the choir leader, Mr. Shildrick, which was much admired. Truly Miss Coburn was assured of her choir companions' best wishes.

Red Cross Circle No 124, which met at the home of Mrs. E. P. Mathers, 9529 103rd avenue, on Wednesday afternoon was very much pleased with a kind donation of the use of a room in Mrs. Mathers' home in which the Circle is to meet and do its sewing in the future. It will continue sewing all through the summer. Ten dollars was realized from the last meeting and given to the Red Cross Society. This Circle with twelve members does on an average of from one hundred to one hundred and twenty-five articles a month, besides knitting.

At the Red Cross sewing meeting of McDougall Ladies' Aid on Wednesday last about fifty ladies succeeded very nicely in combining business with pleasure. Not only was sewing much in evidence, but a pleasing feature of the afternoon was when Mrs. Armstrong, wife of the retiring pastor, was asked to come to the front and was made the recipient of a beautiful cameo brooch. The presentation was made by Mrs. Ontario, president of the Ladies' Aid, and the address given by the secretary, Mrs. Fanning. Mrs. Armstrong, although taken by surprise, made a suitable acknowledgment of the gift. Refreshments followed and the afternoon was spent very sociably.

Mrs. E. L. Arnott of Elk Point is now out of danger and is at present at Vermilion hospital recovering from the injuries she received in the runaway accident a few weeks ago. At Vermilion hospital another minor operation was performed upon her arm, and she is doing so fine now that the special nurse which the patriotic fund officials had sent from Edmonton to her has returned to the city. Her three children, aged 9, 7 and 5 years, are at the farm and being well cared for by their grandfather and the neighbors. The crop which she had been preparing for when the accident happened and which the patriotic fund officials had sent from Edmonton to her has returned to the city. Her three children, aged 9, 7 and 5 years, are at the farm and being well cared for by their grandfather and the neighbors. The Edmonton Presbyterian of the Woman's Missionary Society had a most interesting meeting on Wednesday afternoon. Mrs. Bremner, the president, occupied the chair. Mrs. Dyde, who was the delegate to the general council of the W. M. S. E. recently held in Toronto, reported the meeting. Her report of the work done was most interesting and instructive. One was struck with the feeling that the speaker had received much inspiration from her attendance at the meetings, and certainly she passed it on to her hearers. Who is to say that these women who have sons and husbands at the front, yet are banding themselves together for prayer and work, that righteousness may prevail at home and abroad, are not at home helping to win the war. One touching incident in Mrs. Dyde's report referred to a Bible reading given by the council by a mother bearing on the incident of Mary Magdalene anointing the feet of Jesus, and to the comment of Jesus at the waste, to which Jesus replied that it was a beautiful gift, reminding her hearers that a little later Jesus sold his Master for a much smaller sum than he had complained of Mary wasting the significance of the incident as applied being that the lady giving the reading applied it to the gift of the mothers of their sons.

Morning subject, "Worship God"; evening subject, "Essentials Revealed". Services at 11 a. m. and 7:30 p. m. will be conducted by Rev. Dr. J. M. Millar, of Robertson college. At the evening service the choir will give Gounod's motet, "Gallia".

The Daily Poem

LILACS.
In lonely gardens deserted—unseen—
Oh! lovely lilacs of purple and white,
You are dipping down through a mist of green
For the morning sun's delight.
And the velvet bee, all belted with black,
Drinks deep of the wine which your flagons hold.
Clings close to your plumes while he fills his pack
With a load of burnished gold.
You hide the fences with blossoms of snow,
And sweeten the shade of castle towers;
Over low, gray gables you brightly blow,
Like torches turned to flowers.
The tramp on the highway—ragged and bold—
Wears you close to his heart with jaunty air.
You rest in my lady's girde of gold,
And are held against her hair.
In God's own acre your tender flowers,
Bend down to the grazes and seem to sigh
For those who count no more by hours.
Whose summers have all passed by—
But at eventide the south wind will sing
Like a gentle priest who chanteth a prayer,
And the purple censors he'll set a-
swing
To perfume the twilight air.

Booklet Tells How To Care for Babies

Edmonton Health Department
Has Issued Very Instructive Little Treatise.

"How to Take Care of Babies During Hot Weather" is the title of a most instructive little book now being issued by the Edmonton Health Department. It can be obtained by calling at the health office in the city hall and mothers will find it worth their while to secure a copy. It contains a great deal of most useful information on how to feed the baby during the summer months, its clothing, sleeping, bathing and general handling. "A Baby Primer" is another handy little publication for mothers. It is illustrated and depicts points which are of special significance in the treatment of children. This booklet can also be obtained at the health department.

CUPID'S COURT

Middleton—Itoundell.

A very pretty wedding took place on Thursday afternoon, June 14, at All Saints' Pro-Cathedral, when Annie Hilda, only daughter of Mr. and Mrs. A. Roundell, was united in marriage to Mr. Edward Middleton, of Edmonton. The Ven. Archdeacon Webb performed the ceremony. The bride was attired in a lovely dress of white crepe de chine with veil and orange blossoms and carried a beautiful shower bouquet of white lilies and carnations. Mrs. Lily Myers attended the bride as matron of honor, wearing a pink voile dress and carrying a big bouquet of mauve lilies; while little Miss May Roundell, the bride's niece, was the flower girl carrying a basket of lilies. Mr. Arthur Medland was the groomsmen. After the ceremony the many guests went to the bride's home on 10th avenue where a reception was held. The young couple were the recipients of many handsome presents and the good wishes of a large circle of friends.

Zanzig—Lands

A quiet wedding took place Thursday morning at the home of Mrs. and Mr. Lands, 98th street, when their oldest daughter, Gertrude, was united in marriage to Alfred Zanzig of Winnipeg. The bride looked charming in a pearl grey suit with hat and shoes

"Nature" chose Assam

Scientists tell us that Assam is northern India was the original home of the tea plant. Thousands of years ago "Nature" chose the climate and soil of this favored region as most suitable for growing tea.

It is, therefore, natural that the hillside gardens of Assam (see picture) grow the teas which to-day are famous for their flavor, fragrance and rich strength.

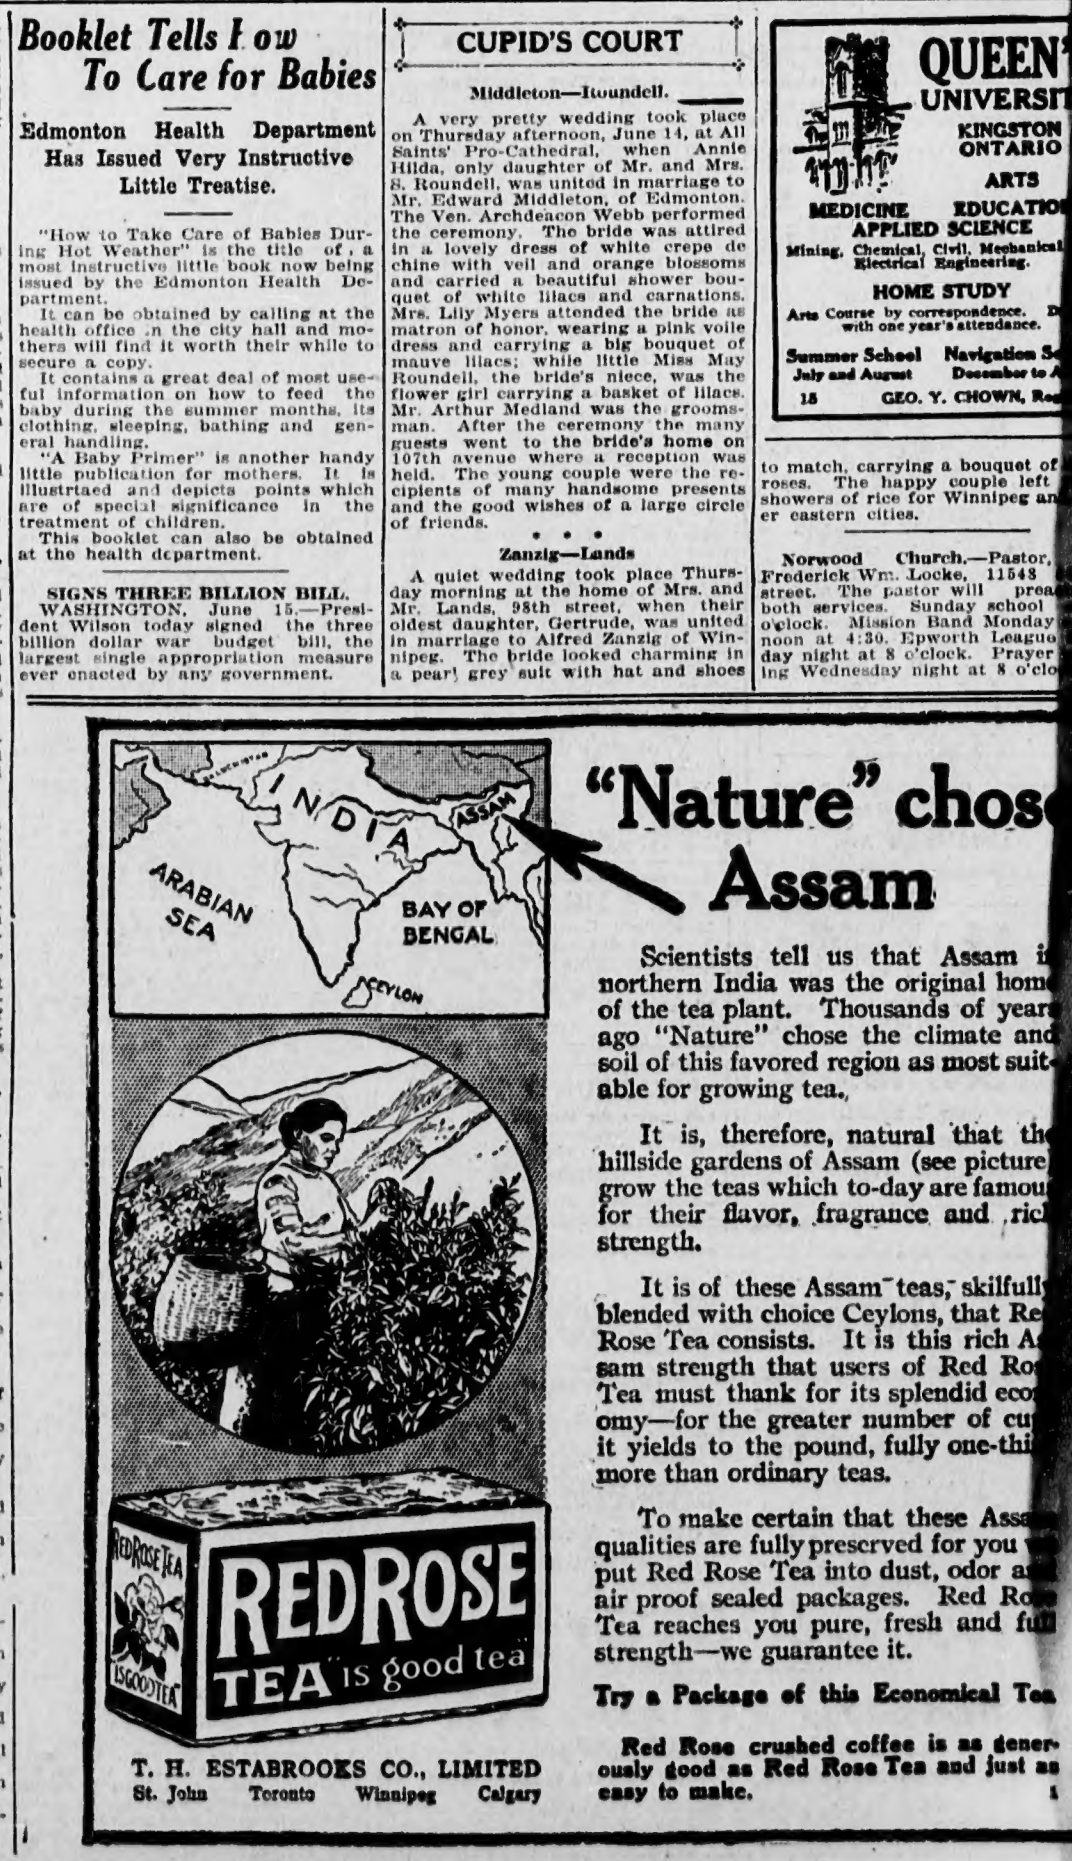

It is of these Assam teas, skillfully blended with choice Ceylons, that Red Rose Tea consists. It is this rich Assam strength that users of Red Rose Tea must thank for its splendid economy—for the greater number of cups it yields to the pound, fully one-third more than ordinary teas.

To make certain that these Assam qualities are fully preserved for you, we put Red Rose Tea into dust, odor and air proof sealed packages. Red Rose Tea reaches you pure, fresh and full strength—we guarantee it.

Try a Package of this Economical Tea

Red Rose crushed coffee is as generously good as Red Rose Tea and just as easy to make.

The Social Side of City Life

Canadian History Pageant at Empire Brilliant Spectacle

"From Ericson to Wolfe," a pageant of Canadian history, was most effectively and splendidly staged in the Empire Theatre on Friday evening by the pupils of Oliver school under the direction of their teachers. Those who are responsible for the presentation of something that was both instructive and interesting and certainly succeeded beyond expectations. It was an exceptional pleasure to the large audience and was undoubtedly a great pleasure to the performers, as their work evidenced. It would be almost impossible to review the whole production, as it took nearly three hours to run through, but from start to finish there was not a lull and there were none of the long waits which are so common to amateur affairs.

The tableaux were beautiful and the colors and posing made one fine picture after another to be long remembered in the minds of those who witnessed them. Some very fine talent was brought to light and some beautiful, too, displayed. The voices of those who had speaking parts were good and hardly a word was lost. The tableaux, in which many Indians took part, were especially fine and were loudly applauded. The rugged Norseman, the bold navigator Columbus, the explorer Cartier and Samuel de Champlain, the fearless Maisonneuve, the zealous Laval, the fiery Frontenac, the dauntless Wolfe, the faithful Montcalm and other characters were living realities. The costumes were a decidedly important part, for without correct costumes much if not all of the effect would have been lost. To the fine effect produced by the clear color scheme. The orchestra under the leadership of H. C. Graham added in no small measure to the success of evening, and as they played between each scene their work was not light. The dance done by Miss Margery Chauvin and Miss Ellen White was very attractive and the Maypole dance deserves special mention, also the Irish jig. W. C. Richards was to be heartily congratulated on the success of the pageant, of which he was the promoter and moving spirit. "He proceeds are to be given to the Military Y. M. C. A. Those who were not fortunate in attending last night have a treat in store either this afternoon or tonight. The principal characters were represented as follows: Ericson, Willie Powers; Columbus, Leslie Smart; Jacques Cartier, Wellesley Thompson; Samuel de Champlain, Eugene Horne; Maisonneuve, Dent Sykes; Frontenac, Alex. Howie; Louis de Buade, Claude Fontenac; Frank Good; the Selkirk in early life among French-Canadians, Chester McKendrick; Wolfe, Ronald McLean; Marquis de Montcalm, Robt. Mitchell.

TODAY'S INQUIRIES.

1. Scrambled eggs sometimes become watery. What is the cause?
2. How many cups of granulated sugar equal a pound?
3. Which takes the longer to boil, new or old potatoes?
4. What superstition attaches to June as a wedding month?
5. Is it usual to include both of the engaged persons at any entertainment to which one may be invited?
6. When giving a dinner should a hostess place an engaged couple together at the table?

ANSWERS TO YESTERDAY'S INQUIRIES.

1. When cooking acid fruits, such as plums, cherries, etc., less sugar will be required if it is added after cooking.
2. Apricots, peaches and other dried fruits should be soaked in cold water for at least twelve hours before cooking.
3. Crocheted articles can be cleaned if they are well rubbed into flour several times, then shaken out.
4. French Cheese Omelet
To the Editor of Woman's Page:
Dear Madam—I have an easy recipe for an old French cheese omelet. I have tried several and cannot quite get the right substance. The Women's Exchange was recommended to me and I hope you can help me.
SPELLIA.
If you will follow these directions carefully I think you will have success:
Four eggs, slightly beaten; one-half teaspoonful of salt, one-eighth teaspoonful of pepper, one-half cupful hot water, one-half cupful grated cheese. Mix in the order given, pour into a hot greased omelet pan and when the mixture thickens stir it up with a fork, letting the uncooked part take the place of the cooked. When it is firm fold and serve on a hot platter.
5. A bridegroom, in addition to the suit he wears, should give him his cravat and gloves.
6. A girl should always return a man's presents after breaking her engagement with him.

To Save Every Bit of Bread
To the Editor of Woman's Page:
Dear Madam—It is a mistake to throw even the smallest piece of bread away. Two or three times a week spread the accumulated scraps on a tin plate and set in a moderate oven to dry, but do not let them brown. While still warm place on a broad board and crush to powder, then put in a closed jar and use when needed in bread, croquettes, chops, etc.
HOUSEKEEPER

Keeping Butter Fresh
To the Editor of Woman's Page:
Dear Madam—When one is light housekeeping and does not have to keep butter for long periods, how may butter be kept fresh?
(Mrs.) E. S. L.

A dish of butter should be covered with a cloth wrung out of cold water. In this way it will not become rancid for some time. Butter can also be kept fairly well packed in a stone jar with a piece of charcoal and kept in the cellar or some cool spot.

Forget the Young Man
To the Editor of Woman's Page:
Dear Madam—I know a young man of 21. He is very handsome and I am deeply in love with him. I have tried to get more acquainted with him but have not succeeded. Sometimes when we meet in the street he speaks very politely and at other times he just looks right through me. Sometimes I think he likes me and again I think

he does not. What shall I do to make him notice me more?
GENEVIÈVE.

You would do better not to think of this person you describe as attractive; he seems rude and not worthy of a nice girl's interest. Love should not be confounded with mere liking, and, though you may be attracted to him through his very indifference, I doubt if one so indifferent would make a good life companion.

Bashful Lover
To the Editor of Woman's Page:
Dear Madam—I am interested in a young lady whom I have known for about three years. I have good reason for thinking she likes me. Can you tell me how I may find out?
GEORGE.

Why don't you ask the young lady?

LOOKING LAKE

The lake and district are now a veritable paradise for the holiday maker. The general effulgence of the past few days has been the countryside into a perfect Eden of delight. The gorgeous panoply of opulent summer verdure, with which the face of nature is clothed, constitutes an appropriate setting for the charms of this delightful spot as it appears just now. To be appreciated it must be seen, and active preparations are being made for the reception of the influx of visitors expected in the course of the next week or two. Carpenters, painters, boat builders, gardeners, decorators—all are busy overtime to have everything in readiness for the rush that is due towards the end of the month.

Mrs. Doxey's new house is rapidly approaching completion. The roof is finished and the floorings, skirtings, etc., are well advanced. The Robinsons, father and son, have been engaged on this work for the past few weeks. The site of the building is an admirable one, the house is situated on the hill overlooking the lake and commanding a splendid view of the country for miles around.

Chris Saks, a blithesome, having been extended and completely renovated last year, required little attention this season and has a complete equipment for the accommodation of all comers.

Robert Mitchell is getting the "Old Country Restaurant" on the hill into shape and is putting up a number of tents for the accommodation of his patrons at Highland Point.

The leading wharves, which suffered considerably from the ice during the past winter, are receiving attention. Chris Saks and J. Thompson have already got their into shape, while Mrs. McMenomy is making arrangements for the reconstruction of hers.

There seems to be still hope that the privilege of net fishing may be granted to the residents of this district. Thanks to the efforts of Hon. Frank Oliver, whose good offices Chris Saks has secured, the Dominion government has promised to give the matter further consideration and has written the honorable gentleman to that effect.

The weather during the week has been so sultry that bathing in the lake has become a rare event.

The place has been literally alive with automobiles during the past few days.

Among those who motored down during the week were John McNeil, Wm. McNeill and Gus McNeill, A. A. Grady, H. E. Hill, G. B. Cole, C. A. De-mair, R. H. Stevens, H. L. Ross, Wm. Saks, Chris Saks, John Saks, Tom Roates, N. Turgeon, Alex. Taylor, Miss Burns, Miss Hedley, John McLean and party, Miss Connie Dear, Miss Mills Dear, Miss Baisie and party of friends, James Southward and Miss Southward, J. Sangster, of the Canadian Engineers, L. W. Davis, etc.

Mr. and Mrs. Tobin and Master George Tobin and Miss Chesapeake are guests of Mrs. Doxey at "Mon Repos."

J. Stynes, Star Cash, Edmonton, and W. Davis, Edmonton, have erected two tents on Mrs. McMenomy's lot, and they with their families are coming down to occupy them on Saturday and intend staying a couple of months.

Wm. Doherty and children came out to White Sand Beach last week.

A. Grady and A. Grady, who were out to the South Side last Sunday.

Pte. Joe McMenomy, who joined the 242nd battalion (forestry) a year ago, proceeding overseas last fall, has been discharged by the doctors and arrived home Saturday.

A very interesting function took place at the home of Mr. and Mrs. Chris Saks on Saturday last. Chris is the proud father of two lusty young Greeks, aged respectively 2 years and 2 months. As there is no clergyman of the Greek orthodox church in which Mr. and Mrs. Saks belong, in Alberta, the christening of the first born did not take place at the usual time, but was postponed to a more favorable opportunity. This opportunity presented itself on the arrival of the second olive branch. Accordingly Chris got into communication with the authorities of the Greek church in the city of Montreal and secured the services of the Rev. Father Andronopolous, Seattle, who journeyed specially from that city to perform the interesting ceremony of baptizing the two young Greeks. The ceremony of baptism in the Greek church is a most elaborate one, and in this instance was performed in

the presence of all the Greek community resident in Edmonton. The two young Greek-Canadians rejoice in the appellations of Apostolos and Demetrios respectively. After the ceremony Mr. and Mrs. Saks were the recipients of the hearty congratulations of the large number of friends, who were subsequently entertained most hospitably by them.

Rev. Mr. Webster, Presbyterian minister, gave an enjoyable entertainment in the school house Wednesday evening. It was entitled "The Story of the Other Wise Man." He illustrated the story by the aid of magic lantern slides and gave a short sketch of each view. There was a large attendance present and the performance was not over 11 o'clock.

The school trustees of Cooking Lake district got a new pump sunk in the school grounds some time ago. The old one having been condemned owing to the unsatisfactory condition of the water. During the past week a new pump has been installed, and though the water supply is not yet all that could be desired, it is hoped that in the course of a few days it will satisfy all reasonable requirements.

Mr. H. Bryant recently purchased three milk cows in the Androsian district. He is going in more extensively for the milk, butter and cream business.

FOOTWEAR for the Entire Family Takes a Big "Price-Slump" Saturday.

OUR Big Footwear Dept. makes a strong bid for a record day's sales, offering shoes for the entire family at good substantial reductions on former moderate prices. There are several clearance groupings of women's and misses high and low shoes, and many special purchase lots, besides those advertised for men below. Also note the MORNING SPECIALS advertised elsewhere on this page.

Men's \$6.00 and \$7.00 Fine Shoes Saturday at \$3.75

There is very little likelihood of any man investing in a pair of shoes tomorrow without first having seen this special clearance grouping at \$3.75. Included are such popular makes as Hart and Justwright. Shoes for which men would ordinarily pay \$6.00 to \$7.00. They are of best quality patent leather, in button and lace styles with different shaped toes and light and medium weights; well finished. All sizes in the lot. 5 1/2 to 11. Special clearance Saturday, at \$3.75.

Boys' \$5.00 and \$6.00 Fine Shoes at \$3.75

There can certainly be no mistake made by investing in a pair of these splendid high grade shoes tomorrow, regardless of whether the boys are in need of them just at present or not. It is a clearance of broken lines in several styles, in which all sizes are represented. Made on smart man-tan, with Goodyear welt sewn soles. Sizes 1 to 5 1/2. Regularly \$5.00 to \$6.00. Special Saturday at \$3.75.

SATURDAY, June 16, 1917.

BETTER FIND OUT FIRST.

The situation being what it is,

Canadian people ought to ap-

rove the adoption of compulsory

service. Whether they do or not

another question—a question

which the Director of National

Service tells us involves civil war

the Province of Quebec. The

present course would seem to be

find out whether the public will

and for it before trying to im-

pose it.

WHERE RESPONSIBILITY

RESTS.

It may be that Mr. R. B. Ben-

net over-stated the danger when

told an Edmonton audience

months ago that to try to en-

force conscription would produce

civil war in Quebec. But he was

wring the country at the time

when Sir Robert Borden, spoke as

Director of the National Service,

and was taken as declaring the

violation of the Government.

Whether the Government are

in that opinion or not, they

are responsible for the conse-

quences if they try to enforce con-

scription in Quebec without first

getting the approval

of the public and in face of Mr.

Ben-net's declaration that civil

war will ensue.

THE MEANEST OF THE MEAN.

About the meanest specimen in

whole odious family of shirk-

ers is the man who shouts to have

other men conscripted for the

armies, but says nothing about

enlightenment. Conscription does

offer a simple way of getting re-

cruits, and the best recruits that

can be got, and for getting them

with the least possible loss of time.

But it involves a good deal more

than that. It is a complete re-

versal of the national war policy; the

suspension of the principle of in-

dividual liberty, and the adoption

of the principle of compulsory ser-

vice. And is this principle to be

applied only to the hundred thou-

sand men needed in the trenches?

Are the rest of us to be left free

to do as we please, or to do noth-

ing if we please? If there should

be compulsory recruiting for the

army, why not for the carrying

on of war work, and the produc-

tion of food supplies—which the

Director of National Service tells

us are quite as important in their

places as the holding of the line in

France? Is the industrial slacker

to be left to loaf while the lives

of better men are conscripted?

Let us have compulsory service as

it seems to be necessary, but for

the sake of decent consistency, as

well as the sake of the country

and the cause with which it stands

or falls, let it be compulsory all

round and not compulsion only

for the few and exemption for the

many.

PRICE REGULATION OR A

STRIKE EPIDEMIC

It seems fairly certain that be-

fore this summer is ended there

will have to occur one of two

things; regulative action by the

Government to establish and

maintain some reasonable relation

between the cost of living and the

average wage; or there must oc-

cure an epidemic of strikes. Can-

adians will, and ought to, endure

anything to win the war, but they

will not endure a continuance of

the present state of things in or-

der to pile up millions for profit-

ers.

It is easily within the range of

things possible that unless some-

thing is done to set bounds to the

rapacity of the predatory interests

there will come upon the country

a period of industrial chaos, when

transportation systems will be

tied up, industrial establishments

shut down, the output of munitions

suspended. Certainly if

things are let go as they are at

present and if that does not come

about it will be due solely to the

unwillingness of Canadian wage-

earners to bring paralysis upon

the industrial system while the

country is fighting for its life.

And there is a point where, de-

spite this unwillingness, the choice

will pass out of the hands of the

wage-earners. They and their

families must live, and if the pre-

sent trend continues they cannot

live without demanding and en-

forcing a general advance in pay

to rates never before thought of in

Canada. To suppose that the Can-

adian people will indefinitely

stand the plunder they are now

suffering at the hands of food-

gamblers and monopolists is to

suppose that they are entirely

lacking in spirit. If the Govern-

ment has any regard for either it-

self or the country it will not al-

low them to be oppressed to the

point of exasperation.

FROM A FRIENDLY SOURCE.

The Calgary Herald has evident-

ly a correct "slant" on the politi-

cal manoeuvres Sir Robert Bor-

den and his colleagues have been

making around the questions of

conscription and coalition, though

it modestly declines to name them

as the culprits. It says: "There

are men in Ottawa today when

"Canada faces a great national

"crisis who ignore the seriousness

"of the situation and, for the sake

"of party advantage, are playing

"politics. But one name proper-

"ly applies to these fellows—trait-

"ors."

COMPULSION LIMITED?

The Journal elaborates its the-

ory as to the motives which im-

pelled the Bulletin to approve the

principle of compulsory service;

but is scrupulously careful to

avoid stating that it also approves

of compulsory service other than

the proposed conscription meas-

ure. Is it the correct assumption

then, that the Journal stands sim-

ply for selecting one hundred

thousand men who happen to be

of age and physical fitness and

sending them into the trenches,

but for leaving all the rest of us

to do as we please about doing

war work or useless work or no

work at all? Is its enthusiasm for

compulsory service limited to con-

scripting the other fellow?

INDUSTRIAL CONSCRIPTION.

Now that we are to have con-

scription for military service,

should not a little more pushful

regulation be put into the direc-

tion of the National Service sys-

tem? Somehow it hardly seems

consistent to tell one man he must

go into the trenches whether he

wants to or not and to leave an-

other man free to work at a useful

or a useless occupation just as he

pleases.

If some men's lives are

to be conscripted—and that is

what it amounts to—should not

the time and energy of other men

be also conscripted to the extent

that is necessary to stop wasting

these priceless resources upon

things which do not count and of

bringing the production of the

country and the output of the

munition plants up to the abso-

lute maximum?

FEELING VERY SORRY

The Journal is loath to believe

that Mr. Sutherland and Mr.

Mikkalishyn did not bring about

the defeat of the Minister of Edu-

cation in Sturgeon, and is still

trying to persuade itself that in

some mysterious way the majority

of four hundred or so Mr. Boyle

secured there will be overcome

and one or other of the Opposition

candidates returned to the Legis-

lature. The keenness of its dis-

appointment is that the fight

against the Minister of Education,

like that against the Minister of

Municipalities in the adjoining

constituency of Beaver River, was

not merely a Provincial affair, but

was directed under Dominion aus-

pices and with the hope of affect-

ing the contest in East Edmonton

when Dominion elections are held,

—both these Provincial constitu-

cies being in the Dominion riding.

It was felt by the Conservative or-

ganizers that if the Ministers

could be beaten the chances of

winning the East Edmonton seat

in the Dominion elections would

be bettered. To that end the

campaign in both these provincial

ridings was engineered by the

Conservative nominees for the Do-

minion House and his friends, was

assisted by election agents import-

ed under the auspices of the Do-

minion party organization, and if

the sinews of war expended there

all came from the treasury of the

Provincial party that receptacle

must have been very full when the

Lt. Jack Hornsby Returns To Great Bear Lake In Far North After Two Years In Trenches

Pioneer of Wilds Has Had Experiences Which Few Men Have Undergone—Prior to 1914 He Had Lived Six Years With Eskimos—Then Heard of War, and Enlisted—Returns to Old Place of Residence After Two Years' Service.

(Special to The Bulletin.)

Peace River, June 15.—"I'm going back home," said Lieutenant Jack Hornsby to the Bulletin man, as he looked down from the high bank of the Peace on his twenty foot "dugout" canoe and tenderly patted on the head his only companion for the long trip to Great Bear Lake, a big shepherd dog. "Along the barren lands and in the Arctic my home."

With a shock of unruly brown hair unrestrained by hat with a pair of mild blue eyes, looking out from a face still wrinkled with the pain it had lately borne, Jack Hornsby, the Great Bear Lake explorer and hunter told a story that only an adventurous Anglo-Saxon could live.

For six years prior to 1914 this restless young man lived practically alone among the Eskimos who came to the northern shores of the lake to hunt and fish. For six years he used a camera on the wild things of the Arctic land, snapping the shutter on herds of caribou numbering thousands, catching the big timber wolf as he stole cautiously by the lone cabin in the woods about Dease Bay, getting the leaping trout that flung its body above the water in playful exertion. Jack Hornsby had pictures of the Eskimo that showed no pore, but gave impressions of the primitive people true to life. He had a thousand

How to Look Years Less Than Your Age

The most aged face will look years younger after the use of ordinary mercurial cream for from ten days to two weeks. This remarkable substance, because of its peculiar absorptive power, actually removes the thin cell of fat or wrinkles under the skin, a little at a time. Gradually the freer, more youthful skin underneath is revealed. This absorption process being a purely hygienic one, an entirely natural complexion is acquired—quite different from the artificial complexion which appears anything but girlish, though often bearing painful evidence of childishness. An ounce of mercurial cream, obtainable at any drug store, is sufficient to rejuvenate any complexion. It is put on like cold cream at bedtime, and removed mornings with warm water.

To eradicate such marks as wrinkles and furrows, make a wash lotion by dissolving one ounce of powdered ascorbic in one-half pint witch hazel. This has wonderful astringent and tonic properties. It quickly effects all kinds of wrinkles, no matter how caused, making the skin firm, smooth and young looking.

RAILWAY CARS TELL STORY OF NORTHERN RUSH

Rolling Stock From All Parts of America Along Line of E., D. & B. C.

The arrival of numerous cars of rolling stock in the north from many points about the North American continent has caused to be scattered along the E. D. & B. C. railway many cars with strange lettering on their sides. The story they tell is varied and full of human interest. There are cars from as far south as the Mexican line, having the Star of Texas and New Mexico written on them. An Oklahoma line is represented and in one case a San Diego, California, car is sidetracked along the main line.

There are cars from New York State and cars from Maine, bringing effects of French people who are settling in the Falher district. Then box cars from many of the middle western states are awaiting their return to the line which owns them. Some cases these cars will be a long time in getting back to their own tracks for they will be loaded as they recross the big continent and be sent on faraway journeys over strange road beds.

Could these box cars talk many of them could tell strange tales. One of them brought to the north a man and his small son with their entire worldly effects.

When questioned the man told the whole story of why so many people are quitting what are apparently just as prosperous countries as western Canada.

"Just a year ago, now," said the man, "my wife, this little fellow's mother was killed by a tornado. We don't care, do we little son, if the cold in your country reaches a hundred below if the storm like we had at home keep away."

Another strange thing these cars from the south are to be responsible for is the bringing to the new country seeds of new trees and flowers. These are now beginning to show along the right-of-way and in a few more weeks of warm weather wild things from almost every state of the Union and quarters will be seen in the surroundings.

BUSBY
Bulletin Correspondence.
At Busby's booth which was held in the Busby hall on the 7th of June, Lucien Boudreau was favored by 34 to 25 votes, but at the Seymour polling booth which was held at Geo. Bailey's place, the run was 17 to 11 in Hector Landry's favor.

We understand that there is to be a road drag used on the base line this summer from the Lovelock's corner to a Killian's corner. If this is done it will certainly be a great help in fixing the road as it is very rough in the summer.

Mr. Wm. Waage is kept very busy with his auto, taking and bringing out passengers from Edmonton.

Charles Bailey left for Saskatchewan last Saturday.

Mrs. John Shoveller and daughter have returned home from the city, where they have been for a short time.

Mr. and Mrs. Alex Kelly made a flying trip to his father's place last week.

The Seymour district has secured a teacher for their school. The teacher is a young lady from Nakamun.

The Union Sunday School which was organized last winter is usually favored with a large attendance every Sunday.

Owing to the change in the time of the train service, Busby will get mail on Wednesday's and Saturday's, instead of Tuesday's and Friday's.

Busby, June 12th.

WESTLOCK.
Bulletin Correspondence.
The Westlock annual picnic held here Friday was well attended. The greatest drawback was the weather, which was chilly with occasional showers. A number of people came in on the train to enjoy the picnic.

One of the interesting features was the baseball match between Westlock and Busby, which resulted in a score of 15 to 5 in favor of the former.

Autos are getting very plentiful in the village and community. The dealers are selling more this spring than formerly. Many of the auto drivers are quite reckless about meeting, or passing horses on the road, and if the animals are skittish, much annoyance and some accidents are the results.

Dr. Phillips bought a farm recently from Joe Cascanette.

Mrs. Johnnie Marshall came out from Edmonton this week to take in the picnic and also to renew old acquaintances.

Great sympathy is felt for Mrs. Harriette, who set out for Roscoe St. John, is reported wounded and missing.

Angus Marshall returned from Morinville this week, bringing his bride with him.

There is a standing joke on one of the farmers near here who recently purchased a new car. He took the machine into his barnyard and put it in through its back. All went well till he put on full speed. He lost control of the car for the moment and it sailed across the back of the barn and landed in the implements within reach, but very little to itself. Forgetting that that was not the kind of steed he was used to, the farmer began shouting, "Whoa! whoa! whoa!"

Ivan Garrison, of the C. M. C. C. is home on final leave for a few days.

The new flour mill is now in operation, which will be a great convenience to the farmers of this vicinity.

Messrs. Wm. and Achille Houle came to town today, bringing their big team engine which they had just bought.

The leads totalled about 900 bushels.

Mr. Jas. H. Beatt is in very poor health at present.

Westlock, June 9th.

EUINCE
Bulletin Correspondence.
Wilfred Sequin went to Edmonton on Sunday and returned on Tuesday. Fay Donahue went to Westlock on Sunday and returned on Monday. Mrs. John Webster arrived on Monday to visit her sister, Mrs. Devaux.

Mrs. Schoenberger returned to Euince on Tuesday, after a short visit in Edmonton.

The Rev. Mr. Randall arrived in Euince on Tuesday, after having officiated at the funeral of Mr. Neelison, of Pibroch, on Monday. Mr. Randall went north to Fawcett today, after having stayed a few days with Mr. E. S. Dowling.

Mr. Randall hopes to hold an Anglican service in Euince at a later date. A week's notice in advance will be given, so that all desirous of attending can do so.

Several new homesteaders arrived in Euince on Tuesday, desirous of taking up homesteads here.

WATERHOLE

Bulletin Correspondence.

The regular meeting of Fairview municipality was held at Agricultural hall on May 25th. All councillors were present. Reeve John Campbell took the chair. Road work was laid out for the season. Road masters were appointed. The subject of a rural hospital was discussed. The secretary was instructed to get into communication with Peace municipality re the proposal of a joint hospital. It was also decided to levy a patriotic tax on all land within the district.

The barn on the fair grounds is now under construction. It is frame, 25 by 64 feet. A large number of members turned out and put in a good day's work.

A public meeting will be held in the hall on June 18th. W. A. Rae, the Liberal candidate, will be chief speaker.

Messrs. Gerard, Johnson and C. Chalmers attended the Conservative convention at Spirit River.

Geo. Wellwood has lost a valuable brood mare.

D. N. Kennedy, our secretary-treasurer, is attending court at Peace River.

Mr. and Mrs. W. Henstock were visitors at Peace River this week.

Mr. Chas. Dawson has arrived back home with a carload of cows and heifers.

Chalmers is moving his sawmill to Griffin Creek to commence sawing operations at that point.

The crops are looking well. We have had a number of light showers. The majority of farmers are now breaking new land.

DONNELLY
Bulletin Correspondence.

Donnelly is a new town in the Peace River country, on the E. D. & B. C. railway, eight miles west of McLeod, in the Falher district.

Donnelly is springing up like a strange child. Being a favorable locality in the best of agricultural district, Donnelly will grow without a doubt to rank among the other nice towns of the north.

Land is taken continuously in a radius of ten miles of Donnelly and big developments will surely follow in the very near future. A good saw mill owned by Mr. P. Maisonneuve and located four miles south of Donnelly, has done much to the development, giving opportunity to the farmers to have their lumber sawed at a minimum cost for the construction of their buildings.

A new immigration hall under the care of Mr. E. Gravel is a blessing to the new settlers in giving help to the many strangers arriving on every train.

A new post office has been opened at A. B. Cate's store and a building is being erected for the use of the Dominion Land Sub. Agent.

Arrangements have been made for the building of a blacksmith shop. An association has been formed under the name of the Donnelly Farmers' Association, with a view to help in every way in the development of the district, with all the advantages of the north.

There are good reasons to believe that the E. D. & B. C. railway will build a station and maintain an agent who will look after both the advantages of the railway company and the people of the district.

Judging by the many acres of land which have been seeded this spring both at Donnelly and Falher, which is seven miles west, many carloads of grain will be shipped in the fall from the two places. Owing to the lack of accommodation from the railway company at these points many people of the Falher district have been obliged to have their freight unloaded at McLeod, as perishable freight being unloaded at the sidings of Donnelly and Falher could not always be passing during the night. Large quantities of merchandise are often more or less damaged by rain, etc. It is well understood that the railway company is experiencing at present difficulties to do building and other work needed everywhere along their new line, but it is hoped that they will make every effort to give this district the accommodation so much needed.

TREATY PAYING PARTY GOES UP INTO FAR NORTH

D. Laird and His Assistants Leave on Last Trip of Athabasca

(Special to The Bulletin.)

PEACE RIVER, June 14.—On her last trip down the river, the S.S. Athabasca, captained by D. Laird and his assistants in their annual mission of treaty paying to the Indians along the Peace and Hay rivers.

This yearly event, when the government man takes his little iron box filled with brand new one and two dollar Canadian bills and distributes them among the natives of the north at the rate of five dollars per head, is looked upon as of a great deal of importance by the Indians and traders of the districts visited.

Where the points are accessible, traders from the outside often follow in the wake of the treaty man and reap a rich reward from the sale of cheap trinkets, the Indians spending their easily gained wealth liberally.

Notices printed on cotton cloth are posted about the country several weeks before pay dates, with the result that every native of the country gathers at the post designated, having with him the old and the young, the crippled and the blind, those who know the white man's speech and those who know only their mother tongue. It's a great sight to see these simple, honest folk gather on this occasion, their eyes glad with expectation and their every action in keeping with the holiday spirit prevailing.

Mr. Laird's district extends only as far north as Little Red River and the dates and places of his different payments are as follows:

Little Red River, June 8th.
Royal River Reserve, June 12th.
Duncans Reserve, June 26th.
Fort St. Johns, July 5th.
Moberly Lake, July 11th.
Sturgeon Lake, July 12th.
Sawridge, Aug. 8th.
Driftville River, Aug. 11th.
Lac la Poudre, Aug. 15th.
Fort Vermilion, June 12th.
Upper Hay River, June 18th.
Duncans Reserve, June 28th.
Hudsons Hope, July 9th.
Grand Prairie, July 15th.
Wabasca, August 4th.
Swan River, August 10th.
Sucker Creek, August 12th.
Whitish Lake, August 18th.
About 2,500 Indians receive treaty in Mr. Laird's district.

Juvenile Court

(Before Magistrate Murphy)
Two children of a soldier at the front were charged with being neglected within the meaning of the Children's Protection Act. Letters having been received from the father asking that they be placed with his married sister in Calgary, and their mother and her solicitor agreeing to this, the charge was withdrawn. Her worship stated that she had received information from Magistrate Jamieson of Calgary, that their aunt's home in that city was in all respects a suitable one, and that the children were ordered to be forthwith delivered to her.

Mrs. Annie Jackson, senior probation officer of the department of neglected children, charged a Ruthenian girl, aged sixteen with being a neglected child, and asked that she be made a ward. The girl had been working in a pool-room and rooming-house, with a dance-hall attached. Considering the place was not suitable for such a young girl, Miss Jackson persuaded her to take a position in a private residence. The girl ran away from this and returned to the lodging house. A few days later, the house was raided and the girl placed in the children's shelter. A good home had been found for the girl and arrangements have been made for her attending night school, but the officer thought she should be made a ward until she was eighteen. Her father who was present in the court, stated that he approved of the girl being in the pool-room and lodging-house, but had warned the proprietor not to allow her out at nights. Her worship was of the opinion that an opposite warning might have been more in the child's interests.

An order was given making her a ward, with permission that she should return to help her mother on the farm, if required. Eardley Jackson appeared for the parents.

A girl of apparently 14 or 15, and apparently an Austrian, who was found wandering on the streets, and having no home, was charged with being a neglected child. She had told a number of stories to the officers which, upon investigation, proved untrue. Her story to the court was that her mother had sent her out to look for work, with no money and a few clothes which she carried. She had walked from New Railway to Edmonton but, having arrived here, did not know where to go.

An order was made placing her in the care of the Bureau of the Girl, and her father could be brought into the city when the case will again come up for hearing.

(Before Bishop Gray.)
The case of a boy charged with breaking a window in a shoe-shop on the Strathcona Road and stealing shoe-laces, was dismissed for lack of evidence. The complainant asked the protection of the court against the boy's mother who had been calling him offensive names. The woman was warned by the Lordship that she might expect trouble if this occurred again.

Five boys were charged with breaking into the store of W. L. Steele on 98th street and stealing \$9.00. Two of the boys were arrested on the occasion of their third entry. Two were placed on probation and ordered to make good the loss. The other three were let go with a warning.

A boy who broke a pane of glass valued at \$3.00 did not appear when his name was called. Trust probation officer was ordered to take him into detention.

A man who had received several written notices about his boy's truancy from school, and who had taken no notice of them, was fined \$2.00.

A returned soldier appeared to answer for his boy's truancy and eluded him on the way to court. The youth was ordered to be put in detention pending the hearing of the case.

A boy of 14 who stole a bicycle from Fred Seager and a typewriter from C. M. Freeze was found guilty and placed on probation.

Two boys who rode bicycles on the sidewalk contrary to the city bylaw were fined \$1.00 each.

News of the Boys' Clubs Of the City Churches

EDITORIAL

Camping offers the best opportunities a boy can have. It gets him away from his duties (if he works) and gives him a chance to see how beautiful the world is. He learns things he never thought of before, such as the study of nature.

In camping, which is generally in the country, a boy is very stupid and indifferent, who does not watch the ways of nature around him. In town he would learn as much about nature in a year as he would camping in a week. He is under the observations of others when camping, and therefore has not much chance to get into mischief. He learns many useful things in every-day life, such as order, how to cook, woodcraft, etc.

Camping offers the best opportunities and gives something to talk about as you get older, so every boy that has a chance to go camping, don't let that chance go by.

Beacon Club (Grace Methodist)
At a meeting of the Grace Methodist held after Sunday school of Sunday last, the word "Beacon" was chosen as the name for the club. For the summer it was decided not to hold mid-week meetings, but to hold a short meeting after Sunday school. Exco. (St. Paul)

The care of the church and grounds for which the club has assumed responsibility, will be the only work undertaken on the regular meeting days, except for a business meeting on the first Tuesday of each month. The

game on Monday turned out rather unfortunately for us, but we will try to not let it be so again.

The Maple Leaf Club.

The Maple Leaf Club (First Presbyterian) held their first Nature Study Ramble on Sunday the 10th meeting at the north end of high level bridge at 8 a.m. and wending our way slowly down into Victoria Park. We gathered specimens of chokecherry, currant and other blossoms on the hillside and had a thorough lesson in photographing choice specimens, thus beginning our collection with over a score of kinds each. We returned in time to attend the morning service.

As this was our first jaunt of the kind and its intense interest had not been quite divided by the majority of the boys, we had only six out in all. But with the experience to tell of, those who made the venture have since so enthused the others that there promises to be a full quota on hand next Sunday morning.

We had provided ourselves with blotter folders in which we pressed our specimens with the object of meeting during the week to mount them. This we did on Tuesday evening at our mentor's studio. But so many of the boys had no samples we decided to take a wander round the little park below the MacDonald hotel, where the new collectors secured a full quota of our Sunday samples and the other early risers added a dozen new kinds to their collections.

We expect the "sand-man" to be "shaken" very early next Sunday morning by all the boys, as we meet again at the high level bridge at 8 o'clock.

The H. J. K. Club News.

Our boys played a game of baseball with the Rupert Street Club last Friday, June 8th, and we managed to win out, the score being 11-15, in favor of the H. J. K. club.

A few of our club boys received letters containing a small pamphlet from Mr. Jack Storey last Wednesday. Well, in closing, let me remind you of the Sunday school picnic on June 23rd.

Progressive Club.

Baseball is now in full swing and our selected team hope to lead the league. We have some fine heavy hitters who under favorable conditions easily make home runs. Other Sunday school clubs beware of our pitchers. Harry Webb who puts bats out before they start for the first base.

Some little time ago three of our number left for the farm but last Sunday one of the members from the farm put in an appearance quite surprising us. Farm life was evidently too tedious for him.

Now many different birds are there around Edmonton? This club has named almost a hundred different ones. Can you do this. We are going to take all the prizes for the Nature competition and photography, there-

fore you will have to try hard to beat us.
The Progressive Club progresses.

We held our meeting on Thursday and discussed a few things of importance. The main subject was election officers for the coming election. The collections to be taken up are photography, taken up by Adam Piper, taxidermy collection, William Lamb, butterfly collection, after setting all discussions the meeting closed.

On Monday, the president of the club brought to the Club Gardens 300 plants of cauliflower, celery and cabbage. We summoned the members and after hard, willing work found them all in.

The club wishes to thank the president and Mr. Dallas for kindly donating two-thirds of the costs.

The Joshua's Class.

The Joshua's class has interested itself in the Provincial elections on the South Side and they are all pulling for clear government and are glad to see the result of the election here.

A letter has been received from one of our members, Pte. Wm. Hosler, who is in England awaiting the decision of the War Office as to whether he will soon be with us again. He was wounded by shell fire twice, blown up, and wounded by shrapnel.

News has been received that Pte. Lloyd Gaining has been killed in action at the front while on duty. He was an old member of the Joshua's class.

An old news has just been received that Pte. Herbert Allison has recovered his reason and has written a letter home this week.

The Joshua's take turns about in sending weekly letters to our soldier boys in France on active service.

The Joshua's have another avenue of activity open to them now in taking care of the gardens of our soldiers who are serving their country.

Pte. Wm. Hughes another one of Joshua's who was wounded in twelve places in the head and shoulders, has recovered sufficiently to return to France to take up his duty again in the trenches.

In the Joshua's first game in the S.E. baseball league we were defeated by Metropolitan, and in the second game by McDougall, but we hope to give a better account of ourselves in the future.

It is rather interesting to note how far some of our Joshua's class pins have travelled: two to two graves in Flanders, three to hospitals in England on wounded Joshua's, several to soldiers training camps in France and England, one in Vancouver, one in Lloydminster, and one at Mt. Pleasant cemetery, Strathcona.

Pilots (Eastwood Methodist).

At a recent meeting of the above club the advisability of adopting a distinctive color was discussed, and it was decided that the members should wear a pin enameled in the colors of the "Pilot" namely red and white.

At this same meeting the monthly Sunday school attendance report was read, and one very gratifying feature was that all the members of the club had made an attendance of 100 per cent. during the month of May. This pace the "Pilots" intend to maintain for all the other clubs to follow.

A few of the boys cycled out on June 2nd as far as the Half-way

AUTOINTOXICATION OR SELF-POISONING

The Dangerous Condition Which Produces Many Well Known Diseases.

HOW TO GUARD AGAINST THIS TROUBLE

"FRUIT-A-TIVES"—The Wonderful Fruit Medicine—will Protect You.

Auto-intoxication means self-poisoning, caused by continuous or partial constipation, or insufficient action of the bowels.

Instead of the refuse matter passing daily from the body, it is absorbed by the blood. As a result, the Kidneys and Skin are overworked, in their efforts to rid the blood of this poisoning.

Poisoning of the blood in this way often causes Indigestion, Loss of Appetite and Disturbed Stomach. It may produce Headaches and Sleeplessness. It may irritate the Kidneys and bring on Pain in the Back, Rheumatism, Gout, and Rheumatic Pains. It is the chief cause of Eczema—and keeps the whole system unhealthy by the constant absorption into the blood of this refuse matter.

"Fruit-a-tives" will always cure Auto-intoxication or self-poisoning—as "Fruit-a-tives" acts gently on bowels, kidney and skin, strengthens the bowels and tones up the nervous system.

House on the Fort Road. From here a farm house was visited which had greatly suffered as the result of a fire, a horse and two cows losing their lives. Following down the creek behind the house, some very pretty views were snapped. The ride was a very enjoyable one, and each boy had a reminder of it for some few days afterwards due to the activity of the mosquitoes.

AUSTRIAN SOCIALIST'S PLEA

LONDON, June 15.—According to a Vienna despatch, during a discussion of the budget in the Austrian lower house, Karl Seitz, Socialist, made a strong plea for peace on the basis of no annexations and indemnities.

Lift Corns Off With Fingers

Doesn't hurt a bit! Corns and calluses loosen and fall off! Magic!

Few drops of Freezone take all pain and soreness from corns instantly

No humbug! Any corn, whether hard, soft or between the toes, will loosen right up and lift off, without a particle of pain or soreness.

Wonderful discovery by Cincinnati man

This remarkable drug is called Freezone and is a compound of ether discovered by a Cincinnati man.

Ask at any drug store for a small bottle of Freezone, which will cost but a trifle, but is sufficient to rid one's feet of every corn or callus.

Put a few drops directly upon your tender, aching corn or callus. Instantly the soreness disappears and shortly the corn or callus

will loosen and can be lifted right off with the fingers. Freezone doesn't eat out the corns or calluses but shrivels or rather loosens them without even irritating the surrounding skin.

Just think! No pain at all; no soreness or smarting when applying it or afterwards. It is surprising.

Few drops stop corn-pain

Take soreness from any corn or callus instantly

Women should keep Freezone on their dressers and never let a corn ache twice. If a corn starts hurting just apply a drop. The pain stops instantly, corn goes!

Many bottles of Freezone cost but a few cents at any drug store.

N.W.B. SCORED 11 RUNS IN SECOND INNING

Great West Garment Workers
Suffered Defeat By Twenty-
One To Ten.

By a rally in the second inning the Northwest Biscuit Company ball team scored eleven runs on the Great West Garment Company boys, winning by 11 to 10 on Diamond Park Friday night in the Inter-City Intermediate League.

The lineup was:
Northwest Biscuit Co.—Lowther, Snyder, Campbell, Powers, Ranier, Matia, Caulfield, Freeman and Remole.

Great West Garment Co.—Baxter, Campbell, Morris, Morrison, Bruner, Norman, Litten, Ward and Chick.

The following rules were handed out last night:

1. Players are not allowed to smoke after they take their respective positions on the diamond.

2. No player shall dispute the umpire's decision.

3. No senior player will be admitted to the pitcher's box.

4. No interchanging of players from one team to another will be allowed.

McGraw on the Carpet.
PHILADELPHIA, June 15.—John K. Tener announced here today that a meeting of the board of directors of the league would be held in New York probably next Monday to consider the McGraw case.

The New York club has filed a protest against the action of President Tener in firing McGraw \$500 and suspending him until June 25th as a result of the fight McGraw had with Umpire Byron at Cincinnati.

The board, which is made up of all the presidents of the National League, will not only consider the protest but will also take up for action the alleged actions and the board can be depended upon to take prompt and vigorous action.

A report that a suggestion will be made to suspend the New York manager for the remainder of the season could not be confirmed.

DUMMY TAYLOR RETURNS
Dummy Taylor, famous pitcher for the Giants for ten years and later a successful Bison twirler, will endeavor to demonstrate that his pitching arm is still good in Spokane, Wash., July 4.

Opposing him will be Battiste, full-blooded Indian, who four years ago pitched for Portland in a 16 to 1 victory over Spokane. He is also a deaf mute.

The two mutes will appear in a game scheduled between teams representing Spokane and Seattle, as part of the convention of the Washington Association for the Deaf, to be held in Spokane July 8, 4 and 5.

While it has not been definitely settled, it is likely that every member of the two teams will be a mute.

Made It Two Straight
CHICAGO, June 15.—Boston made it two straight from Chicago today by bunching his off. Prendergast started for the locals, but had three bad innings and gave way to Reuther. Reuther pitched his best ball in the pinches and was given fine support.

Battling Ben
CINCINNATI, June 15.—Philadelphia and Cincinnati indulged in an old-time battling bee here today with the visitors finishing as winners, 12 to 5. Lavender was effective until the ninth. Previous to this, however, Knauer and Eller had been hit hard and timely.

Johnson Was Wild
WASHINGTON, June 15.—Detroit took the first game of the series from Washington today, 4 to 3. All the visitors' runs were directly traceable to the almost unprecedented wildness of Walter Johnson, who gave eight bases on balls, hit Vesich twice and made a wild pitch.

Pipe Made Home Run
NEW YORK, June 15.—Pipp's home run in the fifth with two runners on bases aided New York in scoring a 5 to 1 victory over St. Louis here today. The Yankees hit Hamilton hard throughout the game, but four double plays held down their score. St. Louis could not bunch their hits.

MINOR LEAGUES CHANGE
Two minor leagues have gone under recently, the Georgia-A's and the Virginia. Over a dozen franchises in other leagues have changed hands in efforts to strengthen their leagues.

Runaway races and top-heavy salary lists are the principal causes for the changes.

Held to Five Hits
PHILADELPHIA, June 15.—Siebold's pitching and hitting played a big part in the game which Philadelphia won from Cleveland today, 3 to 2. Siebold held his opponents to five hits. He scored a run after making a single and stealing second, while he also drove in a run with a two-bagger.

Increased Lead
BOSTON, June 15.—Chicago increased its margin of leadership in the American League race by shutting out Boston, 5 to 0, today. Claude Williams, the Chicago southpaw, allowed no hits until the eighth inning. Chicago fell upon Pennock, who started in the fifth, for four runs after driving Shore out.

Sporting Facts and Fancies

They're on to Lavender, all right. His well known spit ball doesn't fool the men at the bat as frequently as it used to. The reason is that Old Boy Lavender has frequently wound up for his famous spitter and let loose a slow ball. It fooled 'em for a long time but now he had better get something new.

Cooper wants his last year's salary and as he doesn't seem to be able to get it from the Phillies in any other way, he's suing them for it.

Lester has his batting eye on balls that cross the inside corner of the plate. The fans have noticed that every time one of this kind is put over Lester's connect, and pitched are becoming very wary as to what kind of goods they hand out to Mr. Lester.

Denver's shortstop, Charley Hollocher, is certainly making a name for himself. The Pirates have had their eye on him for quite some time and have made several attempts to purchase him. Before you know it, Denver is going to lose Charley, and then what'll they do.

The National League palm at the present writing belongs to three shortstops. These gentlemen are Mr. Maranville, Mr. Fletcher and Mr. Bancroft. Maranville, however, slightly has the edge on the two other players and he doesn't need very much more demonstration of his ability to have the palm presented entirely to himself.

The Giants may not realize it, but they have Bennie Kauff to thank for a mighty lot. With the exception of this little person the McGrawites are pretty weak at stick work.

There is one player who is cut out for a grenade thrower in the trenches. That's Al Walters, the former Western Canada leaguer, whose throws to bases are as true as if the balls were shot from a rifle. Al has spoiled many runs this season by cutting men off at the bases.

Hughie Jennings, manager of the Detroit Tigers, today celebrates the 27th anniversary of his entry into baseball, which he did on June 18, 1890, at Allentown. Jennings was born in the little mining town of Moosic, Pa., near Scranton. Early in life he future baseball star had to go out and earn his living which he did by digging in the mines. But Hughie was ambitious. After toiling all day in the bowels of the earth he went to school at night. Meanwhile, in his spare moments, he perfected himself as a ball player, and in 1890 he was given a chance as an outfielder with the Allentown club of the Eastern League. He covered right field and did the job fairly well. Then he went to other Pennsylvania clubs and it was not until 1892 that he really began to show some thing. He had developed into a good catcher and as such went to the Louisville Colonels of the old American Association. John Chapman, manager of the team, paying him \$175 a month. Hughie hadn't started to play before Chapman decided that he had been stung, and as the Colonels' regular pitcher had again been put on the active list, Chapman decided to try out his "lemon" on first base, where he had a vacancy. Jennings didn't like it very much, as he had never played first, but decided to try his hand at it. Hughie's success Chapman upon his eyes so wide that they almost popped out. He was "licked to death" and later, when he got the chance, sent Jennings in as short stop. He played the position as if he had been born to it. In 1893 Jennings was sold to the Baltimore Orioles and it was with Ned Hanlon's famous outfit that Hughie made his reputation as the top-notch shortstop of the game. John McGraw, manager of the Giants, was also a member of that team with Jennings. The latter spent the winter months at home studying law and coaching the college ball team. He was admitted to the Baltimore bar shortly afterward. The game, however, attracted Hughie more than did the law and in 1907 he took over the management of the Detroit Tigers. Under his able guidance the latter succeeded in coping the pennant three times in a row. How is that for going some?

Today In Pugilistic Annals.
1857—Tom Sayers defeated Bill Faery in ten rounds at Bantley, Suffolk, England. Sayers, who thus became champion of England, ranks as one of the great men of the ring. Strictly speaking, he was only a middleweight, but he had great speed, durability and cleverness and controlled a terrific punch. Parry, the Tipton Slasher, was a big rough-and-tumble scrapper, but Sayers danced all around him and wore him out, following very much the same tactics that were later so successfully employed by Corbett against Sullivan. Sayers held the title until 1860, when he met John C. Heenan, the Irish-American. The latter would undoubtedly have whipped Sayers if the latter had not got interfered. This bout so discouraged Sayers that he retired from the ring. Tom King became champion of England and defeated Heenan.

1911—Sam Langford outpointed Tony Capoi in ten rounds at Winnipeg.

SHOULD NOT WITNESS BOUTS BY SLACKERS

The New York Evening Sun, after eulogizing Capt. Tom Flanagan for his patriotic work in connection with the formation of the Toronto Sportmen's Battalion, and describing the Toronto sportsman as a man of action, published an appeal from him to professional boxers and athletes to "do their bit."

"The public," says Capt. Flanagan, "should not patronize bouts between slackers, because a slacker is a puny, shallow thing unworthy of men with red blood in their veins."

"As to sport in general, my experience on the other side has taught me that it must be kept up at all cost. It is the only solid foundation for the future armies of the allies. Give plenty of baseball, football, track and field sports to the boys, and there will be developed the material from which real soldiers are made."

'ANOTHER DARTY'
Over in Australia they believe they have found another Les Darcy in Tommy Uren, the new middleweight champion who recently defeated Jimmy Clabby and Eddie McGroarty.

However, our Australian cousins should not be too optimistic about Uren just because he beat these two boxers. Everybody knows that Clabby as well as McGroarty are more or less back numbers and were fast descending the ladder even when Darcy beat them.

ERSKINE FALLS TO M'DOUGALL IN S.S. LEAGUE

Methodist Church Lads Win A
Fast Game By
4 to 3.

The second game in the schedule of the Sunday school baseball league was played last night in Victoria park and was won by the McDougall church lads who beat the Erskine church juvenile representatives by 4 to 3.

It was one of the finest games yet played in the competition which is arousing the enthusiasm of the budding Ty Cobbs of the city. Play was keen and interesting throughout and there was some excellent individual work on both sides as the score would indicate.

The stars for the winners were: H. Murphy, G. B. Bronson, A. H. Sheldrake, J. B. and R. Dagg, 10.

The following was the line-up:
McDougall—B. Murphy, G. Keenedy, R. Dagg, S. Jones, B. Bronson, H. Sheldrake, J. Wood, J. Duguid, and O. Evans.

Erskine—A. Peters, J. Duguid, C. May, H. McGregor, N. Kerr, R. Kerr, C. Anderson, A. Barker, and E. Luke.

RIVALS ARE PARTNERS
Sporting men will be greatly surprised to know that those two old-time ring rivals, James J. Jeffries and Tom Sharkey, are now business partners. They are running a well-paying cafe at Los Angeles, Cal. This is the information brought from the West by Barney Oldfield, who came East for the season's speedy events.

Barney himself is an owner of a successful business in Los Angeles, where he now makes his home. When the subject of the Jeffries and Sharkey fight at Coney Island, New York, November 2, 1916, came up recently, Barney said:

"It would do your heart good to see Sharkey standing in his place of business. He is as proud as ever and acts the part of a millionaire. Tom is always on guard, while Jeff professes to be in the open, and spends most of his time on his ranch miles away from Spring street."

NEXT WEEK'S
ATTRACTIONSMELODRAMA IS
FILM FEATURE
AT THE EMPIRE

"The Whip" From Studios of
Superfeatures Limited, All
Next Week

"The Whip" was originally produced in the famous Drury Lane theatre in London and it made the most sensational success ever recorded in that home of sensational successes. For over two years the throngs surged into the theatre day in and day out to see this wonderful production. Then "The Whip" was brought to this country by William A. Brady and produced in the Manhattan opera house and there it repeated its tremendous English success. Later, "The Whip" was presented in Australia and ran for two years there and it was then translated into foreign languages and presented with equal success on the continent.

There are many reasons for this wonderful success of this play—reasons that make it even more successful as a motion picture. For instance: It is modern, it is about people of today; it has mammoth scenes, the biggest ever seen in motion pictures; it is smart; its people are well dressed; it has a thrilling intense story; it is consistent; it has scores of "punches" and it tells a love story and a story of cunning that cannot fail to grip and hold the attention of every spectator.

It is a real treat that is in store for everyone who can see "The Whip." It will be a treat to see the tremendous scenic effects, the gorgeous gowns, the wonderful interior views and to see and enter into the enthralling and thrilling story revolving around "The Whip," the famous racehorse, whose success in a great race means so much to so many people.

"The Whip" comes to the Empire theatre all next week, with daily matinees.

"THE MIMIC WORLD" RECORD BREAKING MUSICAL COMEDY NEXT WEEK AT PANTAGES

One Hour Show Given By Thirty People Including 22 Chorus Girls.
—New Mark Established By Act In New York
Vaudeville Theatres.

The management of the Pantages theatre offers one of the best bills of any season next week, headlined by a musical act which is reputed to be the largest in vaudeville. "The Mimic World" is a one-hour musical comedy with a company of thirty people. This is the same act which has been breaking records everywhere. It has appeared in New York city, and it is expected to create a sensation in Edmonton. It is a play of youth, of life, of happiness and mirth, filled with everything that goes to make the stage worth while. It has a "chicken chorus" of twenty-two, a score of the prettiest, cutest little kiddies ever seen on any stage, all young, fresh and unspoiled by stage life. There are only

three men in the act, all the rest, visions of lovely femininity. "The pick of America's garden of loveliness," to borrow a phrase from the enthusiastic tergerization specialists.

The show has several stars, all of whom will offer impressions of famous stars of the stage. Among the stars will be the most popular girls, Helen and Ola Hudson, making their last tour in vaudeville previous to entering into a contract with one of the biggest producers of musical comedies in the country for next season, when they will be starred on Broadway. The contribution of the Hudson sisters will include impressions of the great dancers, Nikinski and Lopova, in Russian dances, impersonations of the celebrated Dolly Sisters, in a song hit of their show, "The Bird Song," and other bits. In the cast also is Felix, formerly of Felix and Cairo, a remarkably versatile little chap, who features wonderful acrobatic dancing. He is also a good singer, a comedian and impersonator of such stars as George M. Cohan, Fred Stone in his celebrated cowboy dance and rope spinning and other stars. Other stars include Sylvia Winkle, a little Danish girl, impersonating the great Pavlova; Mae and Margaret Rogers, impersonating the Courtney Sisters; Margaret Smith and Jillian McGuire, impersonating Tempest and Sunshine.

But there are other acts on the bill as well. There are the Lampinis, European comedy illusionists, William Abrams and Johns-Agnes in their domestic comedy, "When Hubby Realizes." Joe Roberts, the popular banjoist, Smith and McGuire, singers and dancers, and the Universal News Weekly.

EMPRESS

Two major attractions for next week constitute the programs at the Empress theatre, one of them being from the world studios, "The Dark Silence," with that noted actress, Clara Kimball Young, in the leading role, the other a production by William Fox, "The Vixen," featuring Theda Bara in a vampire role. Miss Young takes about even honors with Miss Bara in the reputation of being the most advertised women in the motion picture business, and both of them have countless friends in Edmonton. The characters the two portray in the films coming next week are direct opposites, and both are done with finesse, which has characterized their work throughout their careers. Both the producing companies are one with the highest of reputations behind them, and Edmontonians can come to either or both shows with the assurance that an excellent bill will be presented. Miss Young's picture was directed by Robert Caplan, who is responsible for some of the finest work that has been projected to the screens. His scenes are laid in France and the Anglo-French battlefields and hospitals, and unwind deep romance between a man and woman strangely separated, who, after years of mental torture, come face to face with each other after a series of most trying circumstances. The pangs and joys of such an experience are expressed in this film as only Clara Kimball Young can express them. Specially arranged music and an excellent comedy film make the program exceptionally attractive. The passion for power is the ruling motive in the character of Elsie Drummond, the part which Theda Bara takes in "The Vixen." Her main idea of life is conquest of men who interest her, and who, she sees, can be useful to her in life. She lures a lover away from her sister Helen, and then throws him aside when he loses his money. Her next move is to take another of her sister's lovers; this time the man keeps his money, so Elsie keeps the man. The denouement comes some years later, when the deceit which Elsie had practiced toward her sister is proven. It is then that Helen's forbearance saves her from an unhappy home life.

CLARA YOUNG AT EMPRESS NEXT WEEK

Will Show in The Dark Silence
For First Three Days
of Week

"The Dark Silence," which comes to the Empress theatre for three days next week, with Clara Kimball Young in the leading role, is a picture in which this popular actress shows to exceedingly good advantage. It is a World picture, directed by All Cappeland, and tells a vivid story of a girl artist who meets a lover to have him leave suddenly to see father on his dying bed. The left behind to explain matters is not interpreted, with the result that Mildred, love sick, leaves the studio to join the Red Cross nurses. Almsworth returning, is informed that Mildred believes him untrue, has discarded him. Downhearted, he joins the army, and in battle he is blinded. Fat works his magic power and brings the wounded soldier to the hospital where Mildred is engaged. She recognizes him, she cares for him, but as he is blinded, she knows not the identity of his attractive nurse, and tells her the story of his bitter romance.

Mildred then learns for the first time the true circumstances of their estrangement. When Almsworth leaves the hospital, Mildred is engaged to care for him. In the meantime, Bibb, Almsworth's sister, learns that Dr. Watson, a brilliant, especially capable surgeon, has come to the city. She obtains his services, restores sight to Almsworth, and then the soldier and nurse come face to face again, this time never to part. It is an unusually fascinating and interesting photodrama.

GREAT CIVIL WAR PICTURE COMING SOON

"The Crisis," Adapted From the
Story of Same Name By
Winston Churchill

"The Crisis," with full operatic scope and martial effects, will be flashed for the first time before a local audience by the Superfeatures, Limited, at the Empire theatre soon.

"The Crisis" is an elaborate photoplay, following closely the story told in Winston Churchill's famous novel, and presenting a wide field of action and elaborate sound effects after the manner of "The Birth of a Nation." It has been the aim of William N. Selig, the producer, to emphasize the romance of the civil war rather than its cruel horrors, and to present the political aspects in a fair, broad and impartial spirit, vigorously, but without offence to either North or South, and its thread runs through the entire length of the photodrama. The story connects directly with history, and it is presented in a most dramatic manner in the working out of the romance. It is he who brings the lovers together in the final episode.

The love story is told fully in the rich, romantic vein that has rendered Churchill's novel a welcome relief from the indelicate sex fiction of the day, and its thread runs through the entire length of the photodrama. The story connects directly with history, and it is presented in a most dramatic manner in the working out of the romance. It is he who brings the lovers together in the final episode.

MONARCH

"Poppy"—Selignick Pictures.
Norma Talmadge, the popular Selignick-Pictures star, will be seen on the screen of the Monarch theatre all next week in her latest feature photodrama, "Poppy," which is adapted from the play by Ben Peal and John P. Ritter, which was taken from Cynthia Stockley's novel. The story is intensely dramatic throughout, dealing with the life of a young girl who graduates from drudgery to refinement.

Miss Talmadge plays the part of Poppy Deane, who is lured by three men: Luce Abinger, the unscrupulous Dr. Bramhan the generous and Evelyn Carson, the lover. These persons have become known as "the three worst men in South Africa," on account of their adventures with women, but two of them prove that they are entitled to less sinister description. Through them the unique situation arises of a young woman married to a man without knowing it, while the man she loves and who loves her, believes his one meeting with her was only a dream. The traveling of this original plot is one of the most fascinating of the screen series of year.

The director of "Poppy" was Edward Jose, who knows the South African country, where the scenes transpire, having been for many years a resident of that fascinating country. Consequently, there is a wealth of detail and color in the incidentals which make the general production absolutely true to life and dramatically convincing.

SYLVIA WINKLE, one of the clever principals in "The Mimic World," at the Pantages theatre all next week.

DOR. PHILLIPS BLUEBIRD STAR IN A DUAL ROLE

The Girl in Checkered Coat Is
One of the Newest
Features

Dorothy Phillips, star of some of the best Bluebirds, does the best work of her career, at least so the critics say, in the Eastern papers. The story is one of two daughters of a good mother, but of a father with criminal instincts, who had been left motherless when little girl. Mary fled and made her own way through life. Fannie remained with her father and was a thief and a pickpocket. Her father dies and soon after we find her in a department store. Dolly she steals a woman's purse and buys a checkered coat with the stolen money and then slips the purse into the pocket of a coat hanging nearby. She acts suspicious and is arrested, but is released with profuse apologies. A shop girl faints and is carried to her lodging. It happens that "Flash Fan," as Fannie is called, lives in the same lodgings and is followed there by detectives. Frightened, she puts the checkered coat on the prostrate shop girl and then makes her escape. The detectives, of course, arrest the girl, and she is dismissed as innocent, and accidentally she finds friends whom she has been searching by the name of Maitland. The next day Mr. Maitland arrests Flash Fan as she is picking his pockets, and a strange attachment is formed between them. Maitland, who is going to rob a bank, is followed by Flash Fan, who is in the hands of the law. The picture will be shown at the Majestic Monday and Tuesday.

ENCOUNTERING DIFFICULTIES
PETROGRAD, June 14, via London.—The semi-official news agency understands the convocation of the conference at Stockholm proposed by the council of soldiers and workmen's delegates, is encountering serious difficulties of a technical and political character. This is the convention which the Russian Radicals have been attempting to arrange in connection with their peace efforts. It is distinct from the Stockholm conference.

RECRUITING SPIES
PARIS, June 15.—Ramond Ruff Swoboda, who was held for some time by the Paris police in the spring of 1915 on suspicion of causing a fire on board the French liner La Touraine, has been arrested by the Zurich police, according to the Zurich correspondent of the Petit Parisien. Swoboda is accused of recruiting spies to work against France and is alleged to be in close relation with a Geneva business man who was recently sentenced to life imprisonment in Paris for espionage.

GERALDINE FARRAR STAR HAS NEW FILM FROM LASKY STUDIO

The story of an opera singer's career is depicted in the next Geraldine Farrar photodrama, "The Temptation," which will be shown at the Monarch theatre all week of June 25 under the direction of the Jesse L. Lasky Company. This thrilling drama was especially written for Miss Farrar by John Turnbull, formerly critic on the New York Tribune, author of "The Girl in the Checkered Coat," which Fannie Ward presented marked success. It is produced by Cecil B. DeMille, the splendid artist who was responsible for the success of Miss Farrar's first picture, "The Sign of the Cross."

The scenes of this photodrama are laid in New York City—some in the Ritz-Carlton hotel, and others in Big Opera House.

The story of the play has to do with the struggles of a young café to become an operatic star, and retain the love and respect of a fiancé, who is a young violinist composer.

In the cast supporting Miss Farrar are the well-known artists, Pedro Cordova, Theodore Roberts, Jane Wilson, Raymond Hatton, and Joy Anita King and other members of the Lasky combination. Miss Farrar, now one of the most screen actresses, was last here in "Joan the Woman."

FINE DIRECTION MAKES "THE WHIP" A GOOD PICTURE

Maurice Tourneur, the famous director, is responsible for the intensity and thrilling action of "The Whip." Mr. Tourneur directed this tremendous production for Paramount Pictures Inc., and into it he has put everything that appeals to everyone who sees motion pictures.

Mr. Tourneur is a master of his craft. He knows how to get the best out of his actors and to put a picture in the most striking and effective manner. In several instances in "The Whip" he has directed scenes that will stand forever as among the most remarkable the screen has ever seen.

Among these scenes may be enumerated the thrilling train wreck, staged at an actual expense of \$25,000 just for this picture alone; the automobile wreck, absolutely the most sensational ever seen in the movies; the wonderful racing track scenes taken at the famous Saratoga racetrack, and the remarkable scenes of a fashionable fox hunt.

While the many big scenes definitely set "The Whip" apart from all other film productions as the world's biggest motion picture, the best part of the picture is the fact that the success of the film does not depend upon the big scenes alone. The story itself is immensely entertaining. It is of sustained interest, has a big punch, and is thoroughly pleasing. With all these things, "The Whip" is easily the world's biggest motion picture.

"A ROMANCE OF THE REDWOODS"

In accordance with his progressive policy and desire to give his patrons the best in films, Manager Allen, of the Monarch, has arranged for the presentation of Mary Pickford's new Arctcraft picture, "A Romance of the Redwoods," which will be offered at the Monarch at next week.

Edmonton theatre patrons have seen "Less than the Dust" and "A Poor Little Rich Girl," both Arctcrafts with Miss Pickford and the consensus of opinion is that her Arctcrafts are just a little bit better than the Famous Players features in which she achieved world wide fame.

"A Romance of the Redwoods" was staged under the personal direction of Cecil B. DeMille, who also wrote the story in collaboration with Jeanie MacPherson. Mr. DeMille, it will be remembered, is the producer of "Joan the Woman," the famous cinematic spectacle concerning the Maid of Orleans, which was shown here all last week at the Empire theatre.

The art of Mary Pickford the super-actor, combined with that of Mr. DeMille, the producing genius, means a new standard of excellence on the screen. In direct contrast to her previous triumph, "A Poor Little Rich Girl," Miss Pickford's newest vehicle presents a red-blooded story of the west, replete with dramatic situations as well as incidents of typical Pickford charm. Supporting the star in her forthcoming picture is an unusually effective cast including Elliott Dexter, the popular leading man and husband of Marie Dorso; Charles Ogle, fully Marshall, Raymond Hutton and Winter Hall.

In the World of Labor

So far as organized labor is concerned the great question of the moment is conscription. And it is a curious feature in its attitude on the matter, as collectively, organized labor is opposed to conscription, but individually the working man is not. Some people may say that this attitude is inconsistent, but in the light of a little explanation it may not appear so. Personally the working man believes that he should and ought to fight for his native land, his family and home, but when he gets together and talks the matter over he comes to the conclusion that something more than men is required to successfully carry on a war, both in crude and manufactured things necessary to proceed with the war, both in their and manufactured state. To cut the whole matter short the working man holds the opinion that no one should have the chance to grow rich at the expense of his life-blood. There are likely to be heard some interesting remarks on the subject on Monday night at the Trades and Labor Council meeting, as conscription is likely to be taken up as a feature of the meeting. Speaking generally, the decision of organized labor on the subject seems to be that all forms of wealth and natural resources should be conscripted as well as men. It would be interesting to hear some definition of these terms, and how far they propose to go when they talk about the conscription of all wealth and natural resources. Unless some sort of pronouncement is given it looks too much like the Socialist's dream—giving nothing himself, but sharing up what the other way, also, there seems a sort of danger light. Put all industries and manufactures, along with the natural resources, in the hands of the Government, then conscription becomes a very real thing. What do they look like becoming? Nothing but slaves, or a very little better? Why? From the fact that all production would be controlled by the Government, and having no power to conscript men, the latter would be left without personal responsibility of any kind, and their only reason for existence would be to obey orders.

ments of the other branches of city government might be abolished, but the others opposed the suggestion, thinking it impracticable, or that it could only be introduced at a larger initial cost for preparation. Chief Smart explained that the unions might object to the men working at union labor part of their time only, and that there was doubt in his mind of the practicability of the scheme. Mayor Costello favored the granting of the concession of one day in four until the summer season had gone by, especially in view of the fact that Chief Smart had explained that the one day in four could be given until the cold weather season without the employment of additional men.

In contrast to the above, Vancouver, when its fire chief went to council and asked for 15 more men in order to keep up the efficiency of his department, he was told to close two halls and get along the best that he could with the men that he had.

The charter of the newly-formed local of the Edmonton firemen arrived in the city this week, and will be framed and placed in the Central Labor Hall.

NOTWITHSTANDING anything contained in the resolution of the council of the 12th day of February, 1916, instructing the discharge from the city's employ of all naturalized British subjects born in an alien enemy territory, that the city commissioners are authorized and given power to employ any naturalized British subject who can satisfy the city commissioners that he is a loyal British subject. The above resolution is to be moved and placed before the Calgary City Council by Alderman J. J. S. Skinner, who in giving his reasons for doing so, says "the Canadian people for many years before the war continually held out inducements of all kinds to lead the people from the continent of Europe to settle in the west, in order to cultivate our lands, and to increase our wealth, and whereas many people from countries now at war with us were led long before the war to come to our country

A new wage schedule covering the chop trades of the C.P.R.'s western lines until May 1, 1918, has been arranged between the company's mechanical department officers and a committee representing the men. The signatures of C. A. Temple, superintendent of motive power, for the company, and J. Talon, vice-president of C.P.R. federated trades council, are attached to the document. A flat rate of six cents per hour was granted to all skilled men, while in some cases 16 cents of advance was made to specialists to bring them on a level with higher paid trades. An important feature of the new agreement is the elimination of second-class boiler-makers, which puts all boiler-makers on even footing as first-class men. Under the new rates, machinists and boiler-makers in Winnipeg will receive 14 cents an hour and blacksmiths 58 1/2 cents, which will bring their monthly pay to about \$110. The moulders, carpenters, sheet metal workers, pipe fitters and other trades will receive 14 cents to 52 cents per hour, which will give them about \$90 per month. The new rates went into effect from May 1, and men receive their first pay under them in their pay envelopes on June 13.

THE City Commissioners of Calgary have decided to give the city firemen one day off in four during the summer months. This was in answer to the request that they should have more time off from duty. Some surprise having been expressed by the aldermen that the firemen were asking for more than they did before the war broke out. Fire Chief Smart explained that it was due to the policy of employing only married men, as all the latter desired to spend at least a small portion of their time with their wives and families. Previously the single men had not seemed to care whether they were on duty 24 hours out of the day or only a portion of that time. When the concession was under discussion it was at first opposed by Commissioner Smart, who said that the commission owed a duty to the rest of the city and that if a change were to be made that "Two Platoon" system should be introduced and the men given a shorter shift with instructions to work at their trades, painting, in fact, anything which would be of use. In this way the commissioner thought the city would be saved money for certain depart-

CIRCUS WILL BRING BIG DISPLAY OF WILD ANIMALS

The big Gollmar Bros. circus has annexed another feature this summer, James Patterson's trained wild animal shows, which now makes this modern tented temple of wonders one of the largest shows on the road.

The coming of this double circus and menagerie means for the people of Edmonton all that is new and startling in the way of circus and wild animal exhibitions.

The Winnipeg press, commenting on its opening there on June 1th for four performances, when thousands of people were turned away, refers to it as the best show ever in Western Canada. Special mention is made of the menagerie and trained wild animal show, which, among other features, exhibits the first hippopotamus ever shown in Canada.

These shows claim the distinction of having the largest and youngest hippopotamus in captivity. This monster beast measures twelve feet in

length, weighs between nine and ten thousands pounds and can be seen daily in the centre of the menagerie. Besides there are two hundred animal actors, tigers, seals, sea lions, elephants, camels, horses, ponies, and without doubt the greatest and largest group of trained lions ever seen with a similar organization.

Don't forget to get up early on that joy day, next Friday morning, when this big, double circus and menagerie will make its opening in Edmonton.

by these inducements, and we promised just laws and equal treatment with all other citizens. We are bound in all honor and by every principle of right and fair play to fulfill our promise; to show by our actions that we do love justice as we say we do, and to deal fairly with all of these people, who have become British subjects at our invitation; who have kept their oath loyalty and faithfully, and against whom no complaint can be made."

WITH regard to the strike of employees connected with the Government Telephone Department, the situation, so far, appears to be unchanged. The service is being maintained, the government having brought in substitutes to take the places of the employees on strike, and it claims that it will be able to pursue this course indefinitely. However, fresh negotiations are being taken on the part of the employees, and it may not be long before some agreement is arrived at between them and the Government which may prove satisfactory to both parties.

May Need \$25,000,000 To Keep Railways From Going Into Liquidation

Following Government Caucus to Consider Railway Situation, This is Believed to be Estimate Regarding Canadian Northern and G.T.P. Pending Probable Nationalization—Suggestion Made Government Advance Amount and Take Control During War.

Ottawa, June 15.—That approximately twenty-five million dollars will be required to prevent the Canadian Northern and Grand Trunk Pacific railways from going into liquidation pending their probable nationalization at a future session of parliament after the war, is the statement made and generally accepted as being correct following the government caucus of yesterday to consider the railway situation. Of this amount the Canadian Northern would require approximately sixteen millions and the Grand Trunk Pacific half that amount. Should this amount be provided this season it is likely that it will be under such conditions and restrictions as will leave the door wide open for a nationalization of the lines later on. It is understood that the suggestion was made in caucus that the government could advance this amount and assume control of the railways until the war is over. After the war, the C.N.R. and

G.T.P. could be added to the government systems. An alternative plan, little supported, is to loan by mortgage sufficient to the C.N.R. and G.T.P. to guarantee their maintenance but with no further measures of government control. While no decision has been arrived at there is no doubt of nationalization being deferred and of further aid in the ordinary way being granted the lines in financial stress. Both the Canadian Northern and the Grand Trunk have heavy obligations soon maturing. The money markets of the world are closed save for war borrowing. Nationalization would involve an outlay which, taken in conjunction with the annual expenditure of three hundred millions, would tremendously tax the capacity of the minister of finance to "raise the wind" for the emergency of government. So far as the Grand Trunk is concerned in itself it is all right. But the G.T.P. is in need of assistance.

SOCIALISTS IN WRATH AT NOTES ALLIED POWERS

Wilson's Use Of Word "Victory" Creates Indignation—British Note Gives Offense.

PETROGRAD, June 15, via London. June 15.—Clearly the allies will have difficulty in finding common ground with the Petrograd council of workmen's and soldiers' delegates so long as its present frame of mind lasts. One had thought that the British note was clear, conciliatory and thoroughly democratic and in the pleasure of reading it one reflected on the beneficial effect of the Russian revolution in promoting domestic peace. On the Russian government, according to a statement of ministers, the British note seems to have made a good impression. The way seemed open for hopeful and healthy negotiations. But now the Russian revolutionaries seem bent on undermining the good work of the revolution. The publication of the note was the signal for an outburst of pacifist chauvinism, in the greatest part of the socialist press. The allies were included in the condemnation of the British. The notes were savagely analysed and an old bourgeois imperialism contention was discovered under a new form.

President Wilson proved to be the chief offender. His careful statement of the humane objects of the war was dismissed as high sounding phraseology and his mention of that rabid word "victory" aroused boiling indignation. But then America is a sore point with the Russian pacifists. They cannot forgive her for entering the war and they mistrust all Mr. Wilson's assurance. But the British note gives offense because it suggests the conquest of Germany and Austria Poland and the French note because it speaks of Alsace-Lorraine.

WHY BATTERY GETS THIRSTY

Some Important Hints in Keeping Auto Battery in Good Order

However little the average motorist may know about his storage battery, he knows that it must be given distilled water at regular intervals. Most motorists do it without having any idea why it is necessary. Mr. Blais, of the Motor Car Supply Co., Limited, the local Willard Storage Battery Service Station, has undertaken to explain for the reader's benefit why it is necessary to keep the battery filled with water. "The water," says Mr. Blais, "that the car owner puts into his storage battery replaces that which is evaporated. The rate of evaporation naturally depends more or less upon the weather. In summer the battery should be filled up at least once a week, because in hot weather evaporation is quicker. In winter it is generally necessary only once every two weeks.

The conditions under which a car is operated also helps determine the frequency of filling. For instance:

"The charging of the battery generates heat in it. This naturally makes evaporation quicker, so that if a car is being run over long distances with infrequent stops and sparing use of the lights, there is a tendency for the battery to become heated, sometimes, in fact, overheated. The owner of a car run under such conditions will naturally find it necessary to fill his battery with distilled water more frequently than the man who is using his machine for city running, with frequent stops and low speed, hence, low rate of charging.

"Under no conditions whatever should the car owner himself put acid in the battery to bring the electrolyte up to the proper specific gravity. "Normally, no matter how run down the battery may be, charging will restore it and restore the specific gravity of the electrolyte. The amount of acid in the electrolyte remains constant. It is the water only that evaporates. Adding acid then does not restore the battery but ruins it, for it makes the solution too strongly acid thus causing rapid disintegration of the plates and general breakdown of the battery.

"It is imperative to use distilled water or pure rain water that has not come in contact with any metal. Any mineral substances or foreign chemicals in the electrolyte will not only upset the chemical action, but goes on inside the battery, but will rapidly ruin the plates.

"Keeping the battery filled with water means keeping the plates covered half an inch with the electrolyte. This is absolutely necessary not only for the preservation of the plates themselves, but to enable these plates to do their work. If only half of them is exposed to the action of the electrolyte, naturally only half as much power will be generated as when they are completely covered with the electrolyte. The battery is not able to give out the amount of power that it is designed to.

"On the other hand, when the battery is being charged, there is great danger of its being ruined from overheating, because the charge which it receives is designed to affect the whole battery; that is, all of each plate. If the plates are not covered with electrolyte the whole plate is not affected by the charge. For instance, if the plates are half covered with water and the battery being charged at a rate designed for a battery fully filled with water, that half exposed to the action of the electrolyte is getting the entire charge.

"From all this it will be seen that the car owner has to keep his battery filled with water to get the best service out of it."

The Studebaker Car What You Get for Your Money

WHEN you buy a Studebaker SIX, you get the best work of one of the largest automobile manufacturers in the Dominion.

You get a Canadian built car which has been perfected by four years' experience with the same basic design. Each year improvements and refinements have made it a still better car.

These improvements and refinements are based on the experience of 800,000 Studebaker cars in the hands of owners in all parts of the world.

The Studebaker SIX is not an experiment—it is an evolution.

The Studebaker SIX is made of carefully selected materials developed, perfected and tested in the great Studebaker laboratories.

The workmanship in Studebaker cars is experienced, painstaking and carefully supervised. The inspections are rigid and exacting in the extreme.

What is true of the Studebaker SIX is also true of the Studebaker FOUR. Both cars are of the same basic design. Many of their parts are interchangeable—that is why it is possible for Stude-

baker to offer so good a car at so low a price.

The quality of Studebaker cars is evident in their finish and equipment.

Studebaker bodies are obviously substantial in construction. The crowned fenders are of heavy gauge steel.

The paint and varnish work is excellent. The upholstery is not only genuine leather, but high grade genuine leather. The cushions are soft and comfortable. The auxiliary seats are folding armchairs. The front seats are adjustable, and the right hand one reversible.

But the real proof of quality is durability. Studebaker cars stand up and give long, continuous service under the hardest usage.

Studebaker cars are guaranteed by the manufacturer for one year against defective workmanship and material. When you buy a Studebaker you get proved quality, proved economy and the guarantee of a great Canadian manufacturer.

Let us demonstrate to you the many points of Studebaker quality and economy.

FOOD PRICES IN U. S. JUMP NINE PER CENT.

This Was For Month, While Rise in Year Was 32 Per Cent.

WASHINGTON, June 15.—Retail food prices in the United States jumped on an average between March 15 and April 15, nine per cent., as shown in statistics compiled by the labor department. It was the sharpest advance in any one month since the beginning of the European war. The heaviest increases were in flour, 15 per cent.; bacon, 15 per cent.; potatoes, 14 per cent. Every article of food except coffee showed an advance.

In the year ending with April 15, average food prices advanced 32 per cent. Onions during the 12 months went up 179 per cent.; potatoes 146 per cent.; beans 79 per cent. and flour 72 per cent.

BURIAL SERVICE LIBEL UPON LORD

Statement of Dr. Hastings, Toronto's Health Officer, at Medical Convention

Montreal, June 15.—"Our present burial service is a libel upon the Lord," said Dr. C. J. Hastings, medical officer of health, Toronto, in advocating yesterday at the annual meeting of the Canadian Medical Association here, the teacher of hygiene in the schools and colleges of Canada. Continuing he said:

"Our ministers quote: 'The Lord giveth and the Lord taketh away.' He does nothing of the kind. We medical men are largely responsible for the death rate and it is time that the Canadian Medical Association took drastic action in order to safeguard public health against the encroachment of disease, which endangers our citizens and lowers the standard of the nation's manhood."

SUPPORTERS AND OPPONENTS ACTIVE

Memorials For and Against Conscription Have Been Sent to Premier

OTTAWA, June 15.—A number of memorials in favor of conscription have been sent to parliament by local councils of the United Farmers of Alberta.

On the other hand, the opponents of the compulsory service are circulating copies of a printed form of petition to be signed and sent to the prime minister. The petition declares that Canada cannot send any more men to the front without "permanently crippling our industries, arresting our agricultural development and bringing this nation to financial bankruptcy." It declares that the empire will not be strengthened by Canada sending a few more thousand men to the firing line.

"Disabled"

(But Cared For By The Canada Life)

One of the improved features added to Canada Life policies is the Total Disability Benefit. This Benefit, for a very small extra premium, may be included in any of our life or endowment policies now being issued.

Accident and Health Benefit

This new provision does more than protect you against total and permanent disability through accident—it actually furnishes a form of health insurance.

If You Should Be Disabled:

It is the unexpected that happens, and good health to-day carries with it a risk of its own. The exuberant and healthy man is indifferent to danger; accident or ill-health do not give any warning of their approach.

Yet the chance is there all the time; and realizing this from long experience the Canada Life, if you should become totally and permanently disabled by accident or disease before reaching age 60, will—

- 1st, Cancel all future annual premiums or deposits.
- 2nd, Pay you the dividends earned by the policy.
- 3rd, Pay to you while living one-tenth of your insurance each year for ten years.

Apply This to Our New Pension Policy:

Suppose you decide that, no matter what happens, you are going to make sure of \$50.00 a month regular income. If you tried to arrange that without the help of the Canada Life you would have your troubles, but we have it all properly adjusted for you.

You set a definite date at which this \$50.00 a month is to commence, say at age sixty, but you want to be sure of getting it if your health should fail or you should meet with an accident before that time.

The Disability Clause Does It

If you become totally and permanently disabled by meeting with an accident or illness before age 60, which will make it impossible for you to work any more, the Canada Life says:

"No more premiums are required. Instead of paying premiums you will receive \$50.00 a month as long as you live!"

You may be only thirty when misfortune overtakes you, but this does not affect the commencement of the income. So long as you live the \$50.00 a month is paid to you, and if you should die before receiving the income for ten years the future cheques covering the balance of the period will go to your beneficiary.

Why Not Look Into This?

It is impossible to state here all the advantages of this new disability provision, nor can we impress upon you as strongly as we would like the small extra premium required to secure this most up-to-date safeguard.

Ask For Particulars

The healthy man is indifferent to ill-health.

Suppose you were permanently Disabled—

The Canada Life's income would commence—

And continue during your lifetime.

CRYING WANT
IS LEADERSHIP
FOR COUNTRY

J. W. Daffoe, Winnipeg, Says the Newspapers Must Share Responsibility For Condition

TORONTO, June 15.—Addressing the Canadian press at a meeting last night on "The Responsibilities of the Press in Connection with the War," J. W. Daffoe, of Winnipeg, pointed out how public opinion, even in Germany, was formed by journalists, writers, persons and professors, whose main means were lies.

With regard to Canada, Mr. Daffoe said he could not pay any compliments. Its part in one respect had been above all praise, that of the soldiers at the front—but it had otherwise shown too great a readiness to accept the compliments which had been paid from Great Britain and the United States too literally. These compliments had lulled the people into a belief that they were almost doing the whole of the fighting themselves.

The Canadian press has kept strictly in touch with the rest of the country in this respect," he said. "While we have done many things pretty well, we have incidentally, like thousands of others, found in the war an opportunity to grind our own little hatchets, to pay out our own little grievances, and in particular found an opportunity of rejoicing in saying to various people 'I told you so.'"

Leadership, Mr. Daffoe said, was not the fault of the Canadian newspapers, very little leadership and that is due partly to the fact of the disappearance of the value of editorial power. The result is, we must share in the responsibility of the appalling condition of things in the country today—a condition of national paralysis—whose great tragedy is that there

is no reason for it. There never was a time when there was so little actual division among the Canadian people, nor a time when the people were so ready for some generous cure of their ills as now.

Mr. Daffoe then repeated a statement he had heard that the two allied nations which had already quit were Russia and Canada. He closed his address with a message of faith in the men in the trenches and of radiant hope for the dominion.

NOW TOTAL 100,000

Territory Regained Since July, 1916, Amounts to 600 Square Miles

LONDON, June 15.—More than 100,000 prisoners have been taken by the British during the war, James Ian McPherson, parliamentary secretary to the war office, announced today in the House of Commons. Up to the end of May 70,607 prisoners were taken on the western front, to which must be added at least 8,000 for June. In Mesopotamia 10,000 prisoners have been taken since July, 1916. In Egypt the number of prisoners have been taken since July 1, 1916, is approximately 4,725. On the western front the British armies have captured 444 guns since July 1, 1916. In Mesopotamia 122 guns have been taken since the beginning of the war, exclusive of those lost at Kut-el-Amara and subsequently recaptured. In Egypt eighteen guns have been taken.

The territory regained by the British on the western front since July 1, 1916, amounts to 600 square miles.
